

TOP most powerful weapon in Cult of the Lamb

Equip a Cult Of The Lamb player randomly selected at the beginning of each crusade. When exploring, everyone will have the opportunity to find different types of weapons and curses.

These not only increase the overall damage that can be dealt, but also change the fighting style instantly. While the overall strategy won't change, knowing what perks your weapon is granted can help decide when to attack and when to defend.

Whenever One Who Waits decides to grant a player a new weapon, or find a weapon dealer, consider carefully how a new sword might change his abilities. In this article, let's explore the TOP of the most powerful weapons in Cult of the Lamb to make the most of their abilities.

Vampiric Sword

Sword is the most balanced weapon in this game, providing the right speed and power to fight any situation. This versatility makes swords a good choice regardless of their variant attributes.

The Vampiric Sword has a chance to grant the player Blue Heart whenever they are used to destroy an enemy. It's not guaranteed, but with a rare healing like in Cult Of The Lamb, the Vampiric Sword is worth a try.

Matching the Vampiric trait has the simple style of a sword allowing the player to focus on fundamentals while replenishing his health.

Bane Dagger

Daggers trade power for unparalleled attack speed, making them ideal for slow enemies that the player can easily damage multiple times.

The Bane weapon variant, unlocked fairly early through Sermons, has a chance to poison hit enemies, dealing damage over time.

Combining the two forms an effective weapon for any situation. Dagger's ability to hit multiple times in a short time gives the player more chance to trigger the poison effect, and the extra damage from the poison helps to make up for the lower base damage.

Tempest Gauntlet

The gauntlet is a unique weapon, albeit a bit slower than swords, and has mediocre base damage. However, the gauntlet's power and range will increase with each hit in a combo, making the last hit in the series a devastating blow that can hit large groups of enemies.

Different variations of weapons are always good, but when choosing a weapon without any add-ons, gloves are a great choice. Effective combos make it a unique weapon variant, and any additional properties make it even better.

Having unlocked most of Lamb's arsenal at the Temple, the Merciless Gauntlet is a formidable alternative to the basic Tempest Gauntlet. The enhanced crit from the Zealous attribute can allow for truly killer combos.
