Red light Green light

The rules of the game are exactly the same as in the movie, everyone needs to try to reach the finish line before time runs out.

A doll will stand at the finish line, when the music stops, it will turn around and eliminate players who are still moving. To win, the player only needs to remember the lyrics of the song to know when it's over and stop

moving.

Tug

In this game, the player and his team just need to click fast to pull the rope and take down the other team. Of course, all team members need to do the same or everyone else will still lose.

Fight during the break

Most of the lighting will be off in this game, making it pretty scary like in some horror Roblox games. All players in the break area will be given a baseball bat to fight or defend themselves.

In this game, it's best for everyone to ally with other players to make sure they don't get killed. If you can't find anything, the best thing to do is climb onto the top bunk. It will be harder for other players to reach and easier to defend when higher up.

Guess the number of marbles

In this game, players need to guess whether the number of marbles is odd or even. If you guess correctly, you will get 1 marble and if you guess wrong, you will lose 2 stones. When all marbles are lost, the player is disqualified. Each player has a total of 5 marbles at the start of the game and must pass 5 rounds to win. The game requires at least 2 correct guesses to be safe.

Cup of sugar candy

In this game, the player needs to separate the sugar candies in a straight line in the allotted time. If you make the candy, everyone will be eliminated.

Cross the glass bridge

In this game, the character will have to cross a bridge with 2 paths made of glass panels. To advance, the player needs to guess which tile is safe, then step on the tile or else will fall and be eliminated.

It is actually very easy to pass this game because even if you jump to the wrong tile, the player still has enough time to make another jump if fast enough. The hardest thing about the game is to make precise jumps because the glass panels are all quite small.
