

Top of Vietnam - Vietnam's first large-scale virtual reality game launched, invited to experience

Top of Vietnam, the first large-scale virtual reality game developed by Vietnamese, was officially launched by Xtreme Studio, a company specializing in virtual reality technology solutions 4.0 on the evening of 10.5 in Ho Chi Minh City.

Top of Vietnam, the first large-scale virtual reality game developed by Vietnamese, was officially launched by Xtreme Studio, a company specializing in virtual reality technology solutions 4.0 on the evening of 10.5 in Ho Chi Minh City.

In the game, players will participate in the full screen adventure in the virtual space simulated model of Landmark 81 buildings as lifelike. The game is divided into three parts. The first part, the player will have to climb to level 81 of the building. After completing the first stage, players continue to climb the highest point of the building with a height of 461.2m by using a cable gun, in fact the visitors will not be able to reach this position. In the final part, the player will parachute from the highest peak of this tower to the ground. At the end of the game, the player will receive a badge. Each player's achievements will be shown on the game's electronic board.

In the process of passing the challenges in the game, players will be able to see the whole Ho Chi Minh City view from the 8th floor and the top of the building. In the game, everything is simulated very truthfully, when climbing up the building, players will hear the wind whistling in their ears, feel the feeling of trembling when at a height of a few hundred meters or feel the height instead change when jumping to the ground.

Xtreme Studio has spent over 10,000 hours (more than 1 year) researching and developing to be able to complete the Top of Vietnam game.

To experience Top of Vietnam games, you will have to go to the 81st floor of Landmark building and buy tickets to join the game for VND200,000 per turn.

It is recommended that people with a history of heart disease, pregnant women or children should not participate in this thrilling game experience.
