Top-rated typing practice games for children.

1. *Typingtop.com:*

Typingtop.com is a free online typing practice software for children, designed for practicing ten-finger typing and keyboard skills. Children can practice at home or at school, anywhere. Each typing exercise on Typingtop is designed from basic to advanced levels, with diverse formats to help children quickly become familiar with the keyboard and improve their typing speed.

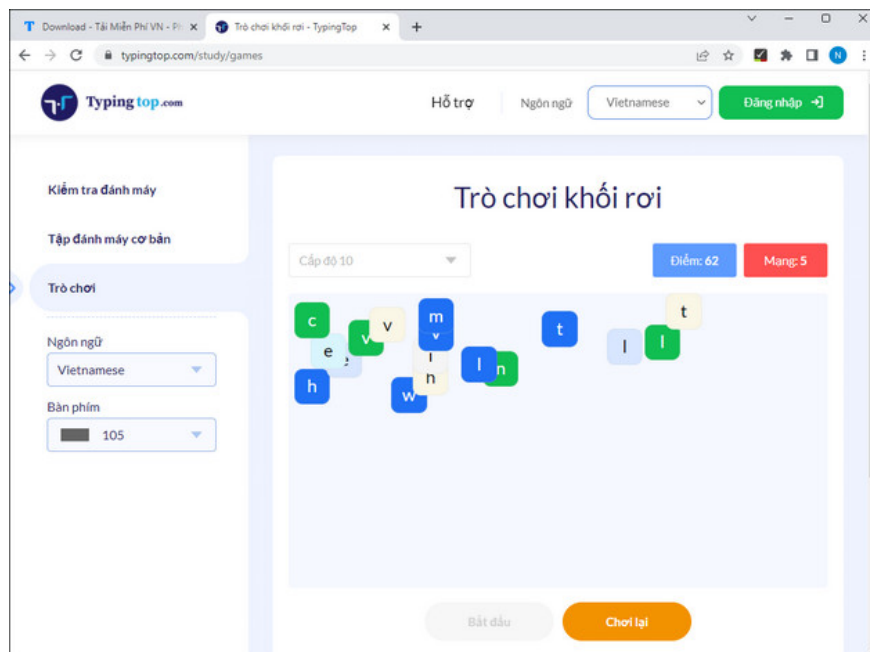

More specifically, Typing Top provides reward badges for users with good practice results, creating a competitive spirit among students and fostering a love for typing. Typing Top has a simple interface in Vietnamese, making it much easier for children to use when playing games.

- Link to play the Block Falling Game: <https://typingtop.com/study/games>

+ **How to play the Block Falling Game:** Choose a level and press Start.

+ **Rules:** Type the keys to make the letters disappear from the screen.

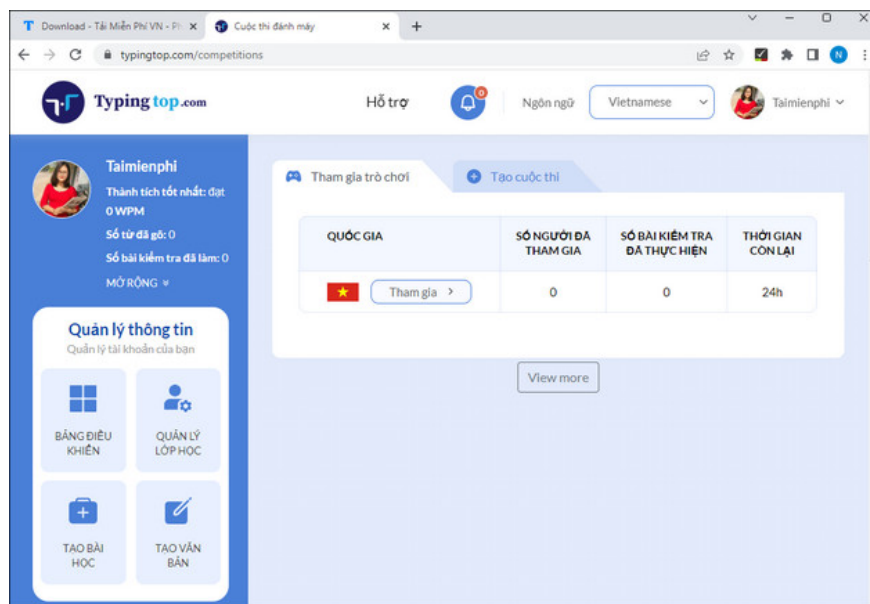

+ **Note:** You must type the exact letter corresponding to the letter displayed on the screen; typing incorrectly results in a life loss.

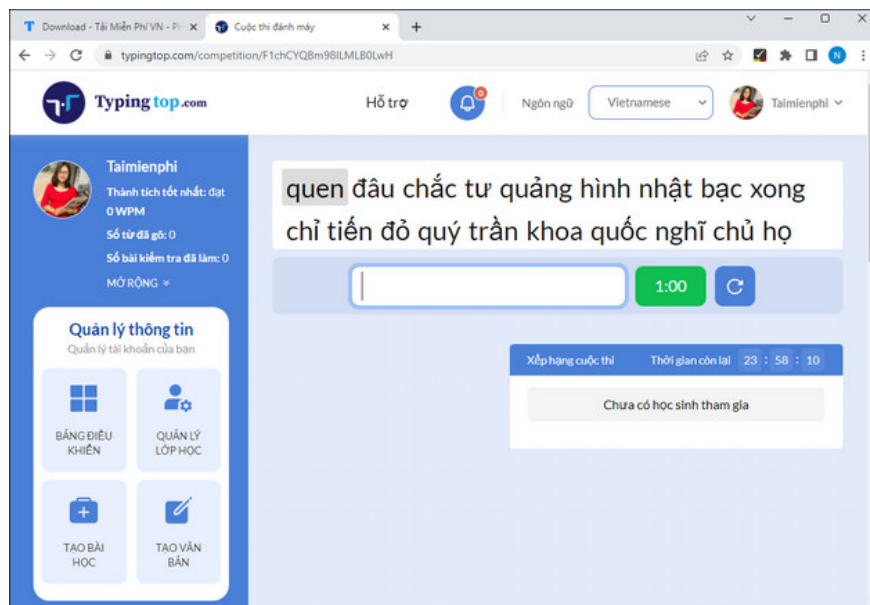

- In addition, Typingtop allows users **to participate in cross-border typing games** (anyone can join)
