

## Toshiba, Dell 'landed' laptops in July

Dell contributes 5 new models while all 4 new models of Toshiba are priced under 10 million VND for students.

**Dell contributes 5 new models while all 4 new models of Toshiba are priced under 10 million VND for students.**

This month continues to be the appearance of some models with 3rd generation Intel Core i chips but low voltage for high-end models. Meanwhile, Toshiba after June is one of the top three manufacturers with technology trends, this month comes back to focus on attractive low-cost line for student users.

**Here are the laptops sold in July.**

### Toshiba Satellite C640-1059U

Toshiba Satellite C640.

The C640 version sold this month uses Pentium Dual B940 chip with speed of 2 GHz, 2 GB RAM, 320 GB hard drive, 14 inch screen with resolution of 1366 x 768 pixels. This model is priced quite cheap, only 7.6 million (not including VAT).

### Toshiba Satellite C800-1008

Toshiba Satellite C800.

C800-1008 equipped with a slightly stronger configuration than C640 with Pentium Dual B970 processor speed of 2.3GHz. In addition, this product also has 14-inch screen resolution of 1366 x 768 pixels, 2 GB RAM, 320 GB hard drive.

The C800 has another noticeable point in the design that the shell is still translucent instead of glossy like the C840.

Satellite C800-1008 has a reference price of VND 7.9 million excluding VAT.

## **Toshiba Satellite C840**

Toshiba Satellite C840.

Satellite C840-1010 also has 14 inch screen resolution of 1366 x 768 pixels, Intel Core i3-2370M processor, 2 GB RAM, 500 GB hard drive. This product line uses the latest USB 3.0 standard port.

The machine has a reference price of VND9.9 million (not including VAT) and two color options are red and black.

## **Toshiba Satellite C665-1003U**

Toshiba Satellite C665.

C665-1003U has a 15.6-inch large screen compared to "*colleagues*" who sold this month 14 inches. It owns Pentium Dual B960 processor with 2.2 GHz speed, 2 GB RAM and 320 GB hard drive.

The machine has a reference price of VND 8 million (excluding VAT).

## **Dell Inspiron 14Z**

Dell Inspiron 14Z.

The two versions of this model sold during the month were Dell Inspiron 14z 5423 -YMR2 and Dell Inspiron 14z 5423 - YMR22 with the corresponding prices of 17.9 and 24.9 million respectively. The difference is that the more expensive version uses a 1.9 GHz Core i7-3517M chip, AMD Radeon HD7570M graphics card, while the other is the Core i3-2367M clocked at 1.4 GHz.

Both have 14-inch screens, 4 GB RAM, hybrid hard drive with 500 GB HDD and 32 GB SSD. Machine weighing 1.87 kg and thin 20.7 mm.
