According to Slashgear, with Ducati logo on the case, Toshiba Ducati U500 will not make users disappointed with the speed of work performance thanks to equipped with Intel Core 2 Duo 8700 processor, 4 GB RAM memory beside the card Powerful ATI Mobility Radeon HD 4570

In terms of machine design, there are only a few changes compared to other models of the Satellite U500 series. It is a white, embossed case and Ducati logo right next to Toshiba's name. Inside the keyboard and chassis are also replaced by white instead of black, and Ducati logo is added on the right edge and the words "Ducati" on the left edge below the keyboard.

Toshiba Ducati U500 will be sold first in the Italian market later this month with an estimated price of about \$ 1,000 (18 million).
