

# Toshiba expands its low-cost laptops with C600 and L600

The Satellite C645 and C655 have a starting price of only 449 USD while the L600 series uses Core i processors with only 515 USD

**The Satellite C645 and C655 have a starting price of only 449 USD while the L600 series uses Core i processor with only 515 USD .**

Satellite L600 series will have 5 new models including L635 13-inch screen, L645 14-inch screen, L655 15.6-inch screen and L675 17.3-inch screen. All of these models use Toshiba's Fusion X2 sinking printing technology. The L600 series will have the option of Intel Core i3, i5 processors or AMD processors including AMD Athlon II, Turion II dual-core, Phenom II 3-core and 4-core. The starting price for the above models is only about \$ 515 (excluding the optional ATI Radeon 5145 discrete graphics card).

Meanwhile, models of the C600 series have even more attractive prices with only \$ 449 at the starting level. The C600 series will include two new models, the C645 14-inch screen and C655 15.6-inch screen. The duo is equipped with an Intel Celeron processor, Pentium or AMD chips, Athlon V120.
