Officially launched in Vietnam market from the beginning of December, Toshiba's 'super product' Portégé Z830 is the ultrabook that is most concerned by entrepreneurs and media.

Despite being fragile, the Portégé Z830 still meets durability and ruggedness with all the magnesium alloy shell and honeycomb structure (honeycomb) as well as good impact resistance.

Portégé Z830 is currently the only ultrabook in Vietnam market equipped with VGA port, HDMI convenient for connecting to projector or HDTV in meetings or presentations.

Z830 owns 2 USB 2.0 ports, the latest USB 3.0 standard port, LAN port for network connection and headphone jack, microphone. The USB port of the device is also equipped with Sleep & Charge technology, which allows users to charge mobile devices through this port even when the device is turned off.

Other very useful features such as spill control keyboard and backlight to operate in low light conditions are only available on Z830 in ultrabook.

The size of the Portégé Z830 is also very impressive with a thickness of only 15.9 mm (the thinnest point of the machine is only 8.3 mm) and weighing 1.12 kg - super thin, super light. Despite being fragile, the Portégé Z830 still meets durability and ruggedness with all the magnesium alloy shell and honeycomb structure (honeycomb)

as well as good impact resistance.

The configuration of the device is quite strong with the second generation Intel Core i5 processor, 6 GB RAM and 128 GB solid-state drive (SSD) for speed of reading or writing data 30% faster than hard drive traditional. It also comes with a fingerprint identification slot to increase security.

The Portégé Z830 takes only 2 seconds to restart from sleep mode and with each full charge, the device can operate non-stop for 8 hours, enough to serve the needs of working and entertainment of successful entrepreneurs. The most effective way.
