

## Toshiba Ivy Bridge laptop costs 13.3 million

Satellite M840 is priced at only 13.3 million dong but owns a 3rd generation Core i5 chip, hard drive capacity of up to 500 GB and SRS Premium Sound HD speaker.

**Satellite M840 is priced at only 13.3 million dong but owns a 3rd generation Core i5 chip, hard drive capacity of up to 500 GB and SRS Premium Sound HD speaker.**

Toshiba is one of three pioneering laptop manufacturers to introduce products running Intel Core i 3rd generation in Vietnam. The company's new product line is marketed M840, aimed at young users in the mid-range segment. The machine possesses a unique mirror coating with three color choices: brown, blue and pink.

M840 has a 14 inch screen size, weighs 1.99 kg. The device is not thin but in return will promise to retain good heat dissipation advantages like last year's Satellite models. The M840 also has SRS Premium Sound HD speaker system, the latest USB 3.0 port and charging feature even when the device is turned off via mobile devices.

Toshiba's new laptop version sold in Vietnam is equipped with Intel Core i5-3210M chip with 2.5 GHz speed, 2 GB RAM, 500 GB hard drive, Intel HD Graphics 4000 graphics chip.

Reference price for the machine is 13.3 million VND (excluding VAT).

**Here are some product images in Vietnam.**

Satellite M840 features a unique mirror cover, even though the price is only in the middle. Machine for a sleek and youthful look but also makes users have to work harder because it is easier to stick to fingerprints than lumpy scales.

Toshiba logo as well as imprinted veins

The machine uses a 14-inch mirror screen with a resolution of 1,366 x 768 pixels.

The M840 has a palm rest and an internal touchpad with the same color as the exterior.

Chiclet-style keyboard.
