

## Toshiba NB305 - netbook with 11 hours battery life

Japanese electronics firm brings to Vietnam the product line inherited from NB200 with many improvements in design, performance and battery life ...

**Japanese electronics firm brings to Vietnam a product line inherited from NB200 with many improvements in design, performance and battery life.**

NB305 is equipped with a mirror screen Clear SuperView 10.1 inch LED backlight, Atom processor new generation (N450 1.66 GHz, 667 MHz FSB) and 6 cell battery. The device is quite thin (24.2 mm), weighing 1.34 kg with 4 main colors of mocha brown, indigo blue, white and red and chrome-plated joints.

Toshiba NB305.

The product has a full-size keyboard, multi-touch touchpad and three-dimensional motion sensor - technology that is only available on high-end computers - to protect data on the hard drive by moving the read head. Safe position when vibration, collision .

In addition, NB305 supports standard Wi-Fi, HSPA 3.5G (on some NB305 versions) and integrates Bulletin Board and RealTime utility to handle daily work efficiently. Toshiba VN representative said that the product will cost less than 10 million dong.

**Toshiba is also preparing to announce three latest Intel Core i5 and i3 chips this month** including Qosmio F60, Satellite E200 and Satellite M500 Premier.

### Qosmio F60.

The Qosmio F60 is a 15.6-inch, 29.1 mm thin laptop with a Blu-ray 6x burner, and a 2.4 GHz Core i5-520M chip using Turbo Boost technology can boost the clock to 2.93 GHz or Core i3 -330M 2.13 GHz, Nvidia GeForce GT 330M graphics with 1 GB VRAM and hard drives up to 640 GB.

Meanwhile, the beautiful Satellite E200, integrated 14-inch Clear SuperView LED backlight and light sensor to adjust the screen to save power, Core i5-520M processor and Nvidia GeForce G310M with VRAM 512 MB.

### Satellite E200.

With the Satellite M500 Premier, consumers have three processor options: Core i5-520M, 2.26GHz Core i5-430M with Turbo Boost technology to increase clock speed to 2.53 GHz and Core i3-330M 2.13 GHz.
