

# Toshiba Z Series - Ultrabook premium for entrepreneurs

The Z30 weighs only 1.17 kg with anti-glare screen options, WiDi technology, latest Wi-Fi standard and TPM security capabilities.

**The Z30 weighs only 1.17 kg with anti-glare screen options, WiDi technology, latest Wi-Fi standard and TPM security capabilities.**

Toshiba Z30.

Toshiba's latest ultrabooks target business customers who need mobile products with 13 to 15 inch screens, long battery life, user-friendly features and a range of software, security solutions, and business. . Toshiba does not emphasize the new models including **Z30, Z40, Z50 and Tecra** are ultrabooks but they all meet the requirements of ultra-thin and light models set by Intel.

The most prominent of these is the **Portégé Z30** with Intel Haswell to Core i7 processor options, the HD display screen resists the 13.3 inch size optional touch feature. Maximum RAM memory of 8 GB and SSD hard drive with maximum capacity of 512 GB. Toshiba claims the non-touch model will have up to 13 hours of battery life while the battery-powered version will last **10 hours**.

The Z30 weighs only 1.17 kg and is 1.77 cm thin. The cover of the machine is made of magnesium alloy with good shock and shock resistance.

The Z series has a choice of 13, 14.1 and 15.6 inch screens.

The Z30 has 3 USB 3.0 ports, HDMI, Gigabit Ethernet, new standard Wi-Fi ac, Bluetooth 4.0, SD card slot, WiDi wireless imaging technology and broadband options. The keyboard has anti-spill, backlight, TPM security and some other security features.

The manufacturer will offer the Z Series product lines to choose Windows 8.1 Pro or Windows 7 Pro to meet the needs of each business block.

The remaining models include the **Tecra Z40** HD or HD + screen, the **Tecra Z50** 15.6-inch screen with HD or Full HD screen. Both models have an Nvidia graphics card option. The weight is 1.45 kg and 1.76 kg, respectively.

The price of this product line was not disclosed.
