

## Toshiba's Ultrabook costs 32.3 million

Yesterday, Toshiba unveiled the world's thinnest and lightest Ultrabook in the Portege Z830 in Vietnam. Toshiba is the fourth manufacturer to introduce Ultrabook in Vietnam market.

**Yesterday, Toshiba unveiled the world's thinnest and lightest Ultrabook in the Portege Z830 in Vietnam. Toshiba is the fourth manufacturer to introduce Ultrabook in Vietnam market.**

Compared to the designs of Acer or Lenovo, Toshiba products look more elegant. Currently, Toshiba's **Portege** is said to be the thinnest and lightest ultrabook in the world, weighing 1.12 kg, 15.9 mm thick, the thinnest point of the machine is 8.3 mm. Compared to the ultraportable R830 with the company, this model is 20% lighter and 40% thinner.

**Z830** like many other Ultrabooks also use the second generation Intel Core i processor, SSD storage, battery allows 8 hours of continuous use. Carrier version announced yesterday using Core i5 chip, 6GB RAM, 128GB hard drive, 8 cell battery.

It has a 13.3-inch screen, WXVA HD Blacklight LED, supports connectivity ports such as HDMI, USB 3.0 and even ports that connect to a large screen. This is also a model that supports USB charging even when the phone is turned off. Portege Z830 equipped with battery-saving buttons, output standard monitors. The device's touchpad allows locking and opening, in addition, this device also supports fingerprint identification.

The official price of Toshia Portege Z830 is VND 32.3 million.

*Below is a series of photos about the machine and the launch of Toshiba's Ultrabook in Ho Chi Minh City.*

The machine has a thin, light design.

USB port next to the right.

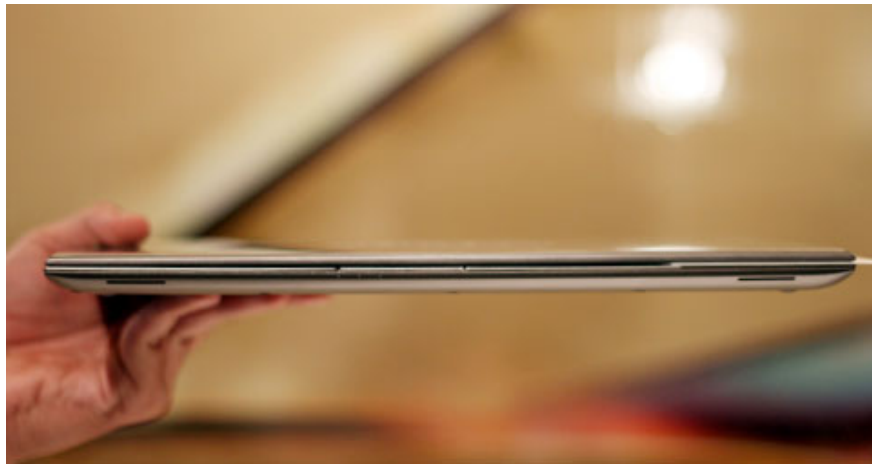

The left side is the SD card slot, two headphone and mic jacks.

Z830 looks slim, but definitely.

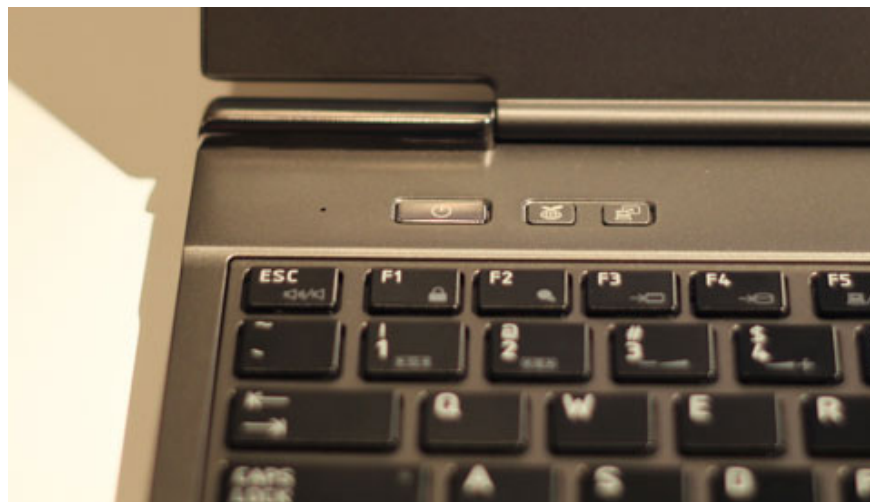

A series of connectors are provided by the company, such as a network connection, USB, HDMI, power and VGA port.
