

# Track pricing status on Amazon with Camelcamelcamel

Today, buying and selling items on Amazon has become popular and popular, but not everyone has enough money to buy favorite items on sale. And they chose to wait for Amazon's discount to start shopping

**Today, buying and selling things on Amazon has become popular and popular, but not everyone has enough money to buy favorite items on sale .** And they chose to wait for Amazon's discount to start shopping. But Amazon does not always offer discounts for certain items, so how do I know exactly when and when to get discounts? Here, TipsMake.com will show you how to identify the situation and the time of up and down of the items you need to buy based on the online comparison service of Camelcamelcamel - or simply called CCC.

For example, we need to monitor the price of Logitech Z-2300 speaker product, copy the corresponding link, then access the CCC home page and paste the Logitech Z-2300 URL into Search, you will Obtain specific information such as specific name, manufacturer, place of production, place of sale and most importantly, price chart arranged in 1 - 3 - 6 months or 1 year. The example here is <http://www.camelcamelcamel.com/product/B0002SQ2P2> :

CCC also incorporates a feature to notify users, register for price changes on specific Amazon products via e-mail or Twitter. Besides, users can set the feature of RSS feed with each or all products. On the other hand, CCC also supports Amazon Wish List import list feature, which will save you a lot of time, and users can not help but mention support utilities for Firefox, Chrome and Bookmarklet for allows users to track price charts from Amazon, Best Buy and Newegg.

And finally the RSS feed for the *biggest Amazon price drop items - Amazon's biggest discount, most recent price drop - the most recent and most popular product discounts - popular products*, are tools Great and indispensable for Amazon customers. With these features, have you considered adding Camelcamelcamel to your list of indispensable bookmarks?
