

# Truth League League of Legends: Strategy to help you have the fastest 3-star champion

These two tactics will help you find the three star general in the Truth Arena the fastest

The 3-star General in the Truth Arena is the target many people look at, especially in the early stages of the battle. But in this time to get a 3-star general is very difficult. The strategy below will help you get the fastest 3-star chess piece.

1. Configure to play the Truth League League of Legends on the computer
2. Truth School League: 5 simple tips that make it easier to match
3. Three effective teams for the new player when playing the Truth School League League

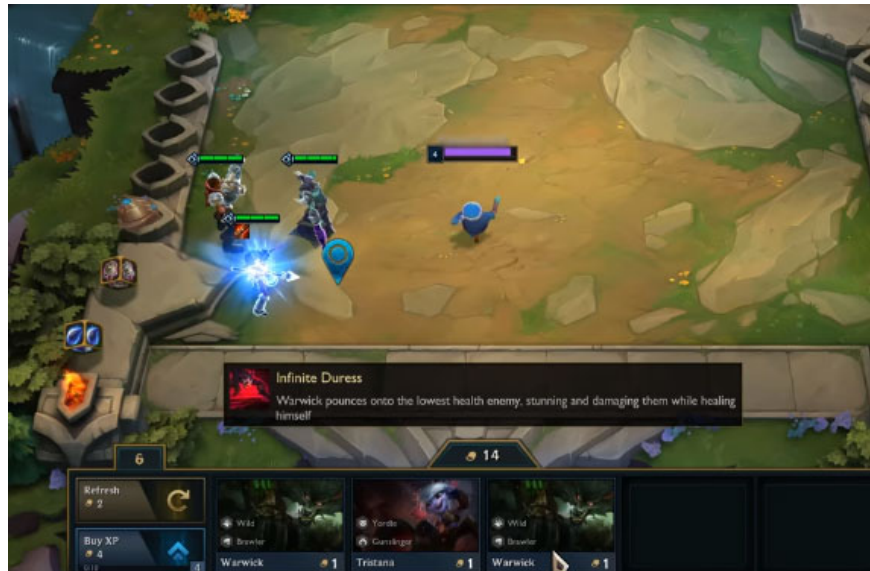

## Tactics get the fastest 3-star general in the Truth Arena

### Hyper-Rolling tactics

Also known as Gambler or roll to death. This means that you use all the gold in the early game to find 1 gold pieces with high power in the early to mid game.

And you will need at least one key piece in the line up combo that you will build about the later time of the game.

This tactic is quite risky if you are inferior, because all of your money has been spent on re-roll, so if your dignity is not good, you will lose quickly, and the chess pieces in your Truth Arena team. not complete and not effective. So Hyper-Rolling is a highly rated strategy.

Because of this tactic, you have focused on investing in a golden one so that they can climb to the highest level. So you should not use gold to level up your d Thúmon, because if the summoned beast is leveled up, it will reduce the rate of one golden summon.

At this point, losing or winning is not more important than the fact that you need to use a number of chess pieces that have good resistance to not lose too much blood in the early stages of the match.

And when you have 1 gold pieces in your hand, your strategy is complete. Now is the time for you to return to the winning sequences, rebuilding the money to prepare for the end of the game.

### **Tactics Economic problem The Arena of Truth**

Although High - Reroll is quite interesting, it is usually only rookies who use it together. Those who have not had much experience and most are taking dignity to fight with each other.

Meanwhile tactics Economic problems are the opposite, it is used more in experienced gamers. You will have a better chance of getting 4 and 5 gold generals faster in this strategy, and from there will be able to gain power quickly for the end of the game.

At the same time it will increase the likelihood that you may be in the top 4 games and even higher in the first place, but in the early stages this strategy is quite weak and you may have to spend quite a bit of money to get these chess pieces at your disposal.

The goal that the player needs to achieve in this strategy is to save 50 gold as quickly as possible to get an additional 5 gold bonus for each round. You should buy the experience pack for your summoned beast to level up before going to the monster ring.

And ideally, you will achieve a level of 50 gold along with level 5. As soon as the two conditions are met, you will start level 6 and roll to find the strong and necessary 4 gold pieces for your strategy.

However, once you roll, you have to adjust to make each gold round for 50 rounds so you can get 5 more gold for each round.

Through the above instructions, you can choose which tactics are suitable according to your play style in the League of Truth League.
