Users are no longer familiar with Skype - video chat and calling applications on phones and computers. This is the first application to make VOIP (Voice over Internet Protocol) calls and before WhatsApp was born, Skype was the online chat king.

Until today, Skype has changed a lot. It no longer owns the title of champion hegemony. Therefore, Microsoft decided to "wear a new shirt" for this application. The preview version of this update has been downloaded for trial now.

What's new in this Skype version?

The redesign of the application is at the heart of this new version. There will be many outstanding colors and many new motifs.

1. Instructions on how to delete chat history on Skype
2. How to delete messages on Skype

You will also see some new features in this version like sharing photos in the call, typing "@" to refer to the members of the group chat, . Besides, media library New will make it easier for you to find sharing content.
