

# Tumblr will ban and delete all 'adult' content from December 17

Tumblr is a social network born in 2007 and contains many 'adult' content. But starting from December 17th, all content of Not Safe For Work will be banned to prevent users from posting inappropriate content and erasing all previous 18+ content. on this social network.

Tumblr is a social network born in 2007 and contains many 'adult' content. But starting from December 17th, all content of Not Safe For Work will be banned to prevent users from posting inappropriate content and erasing all previous 18+ content. on this social network. Accounts that upload those content will be banned from use, but there are some exceptions, such as classical statues, world famous paintings .

This is considered a move to refine this social networking platform after the application is removed from the App Store. Tumblr's algorithm will scan and remove all 18+ content from this social network.

Currently, Tumblr is sending an email informing people whose content is flagged to warn that their content will be taken and private. If you think your content is completely valid, users can complain.

See more:

1. This fanpage is full of 3D effects, virtual magic 4D, comfortable 360 ??degree rotation, watching the whole day is not boring
2. YouTube will free the entire original content and delete all annotations on the video from 2019
3. Microsoft is about to die at Edge, replacing it with a new browser based on the Chromium core
