

# Turn off message notifications for a specific contact on iPhone

With iPhone, iPad running iOS 11 you can customize the notification intelligently. If you do not want to receive notification messages from a specific conversation or want to unhide message notifications from a few people, follow these steps.

With iPhone, iPad running iOS 11 you can customize the notification intelligently. If you do not want to receive notification messages from a specific conversation or want to unhide message notifications from a few people, follow these steps.

Message notifications are quite useful to help users keep up with important content easily. And especially, on iOS 11, users can turn off notifications from a contact, keep sensitive content private.

You can hide alerts for iMessage conversations as well as SMS. When this feature is activated, message notifications are not displayed on the lock screen.

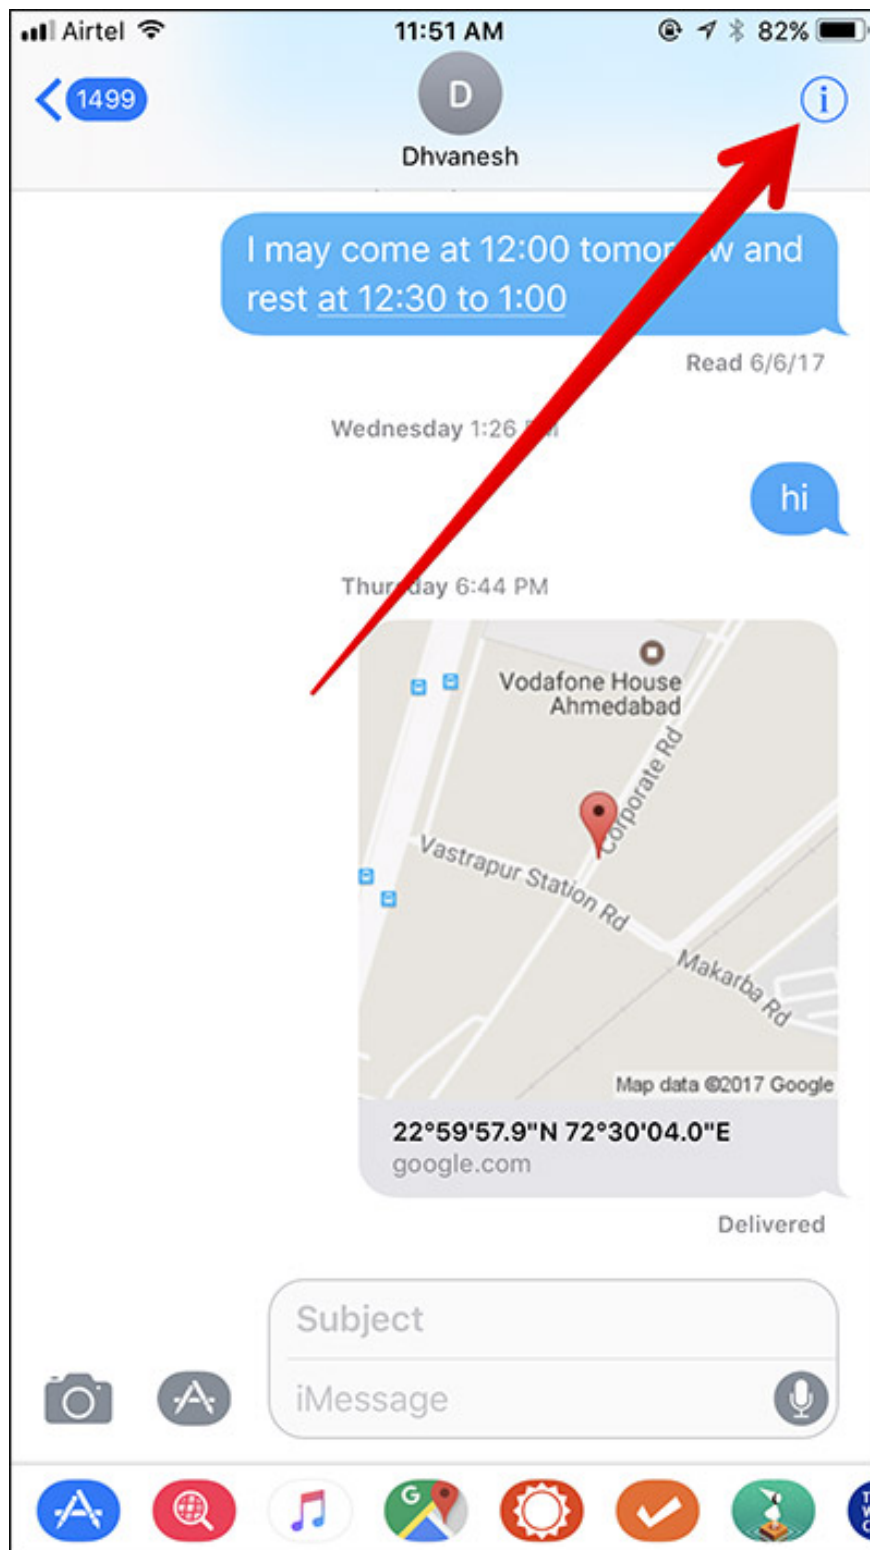

1. How to create iPhone ringtones with iTunes

## How to hide a person's message notification on iPhone running iOS 11

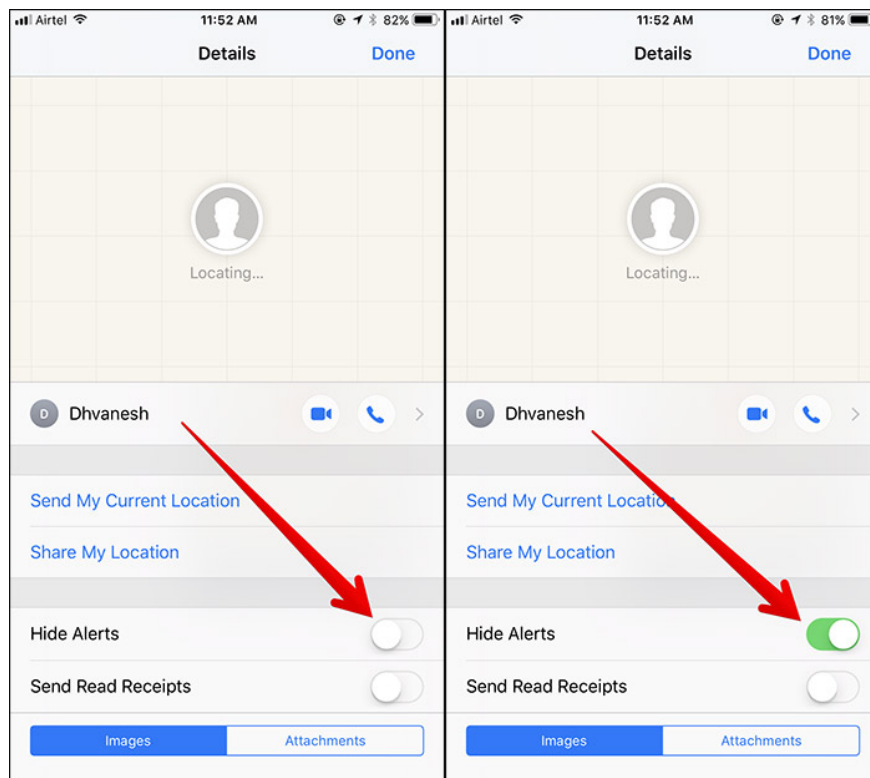

**Step 1** . Open the Messages application on your iOS device.

**Step 2** . Next, open the conversation you want to turn off notifications.

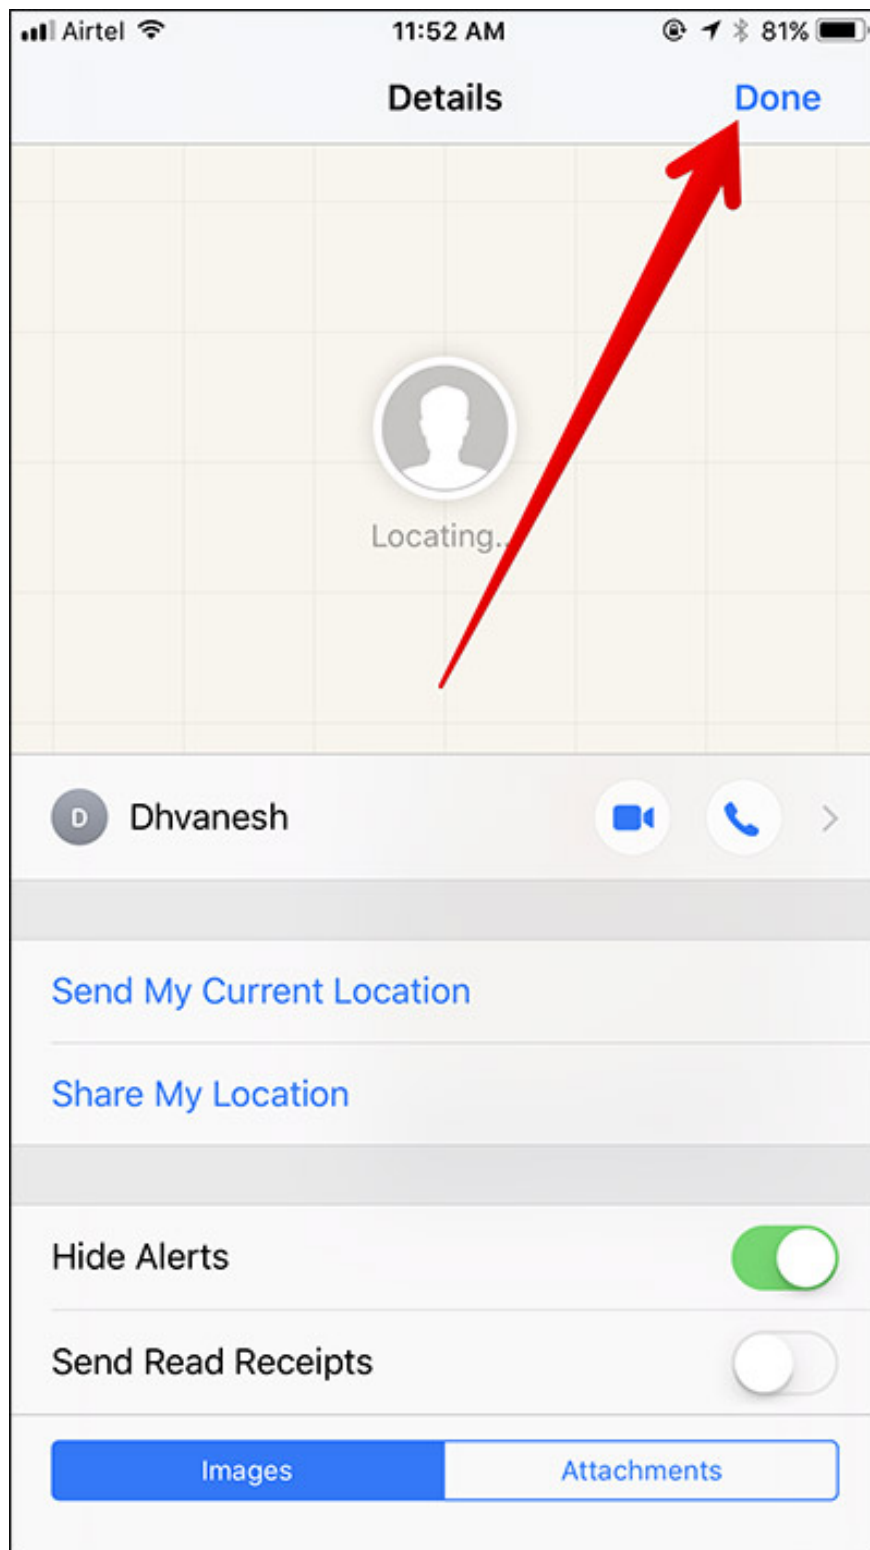

**Step 3** . Now touch the 'i' button in the top right corner of the screen.

**Step 4.** Next, turn on the button next to **Hide Alerts**.

**Step 5** . Finally, select **Done / Done** in the upper right corner of the screen.

From now on notifications from this conversation will be hidden.

## **Unhide message notifications of a specific contact on iOS 11**

**Step 1.** Open the Messages application ? Open the hidden message notification ? press the 'i' button.

**Step 2** . Now, turn off the button next to **Hide Alerts** .

**Step 3** . Select **Done** in the upper right corner of the screen.

So the message message is activated for this phone number.
