

Turn off the Skype icon under the Taskbar after Sign Out

Skype is one of the most used chat software today because of its simple, easy-to-use interface, high stability, allowing sending and receiving files directly. However, there is a small inconvenience, that is when the account is exited, the icon will still be under the Taskbar whether you close it or not. Today, TipsMake.com will guide you how to completely turn off the Skype icon under the Taskbar after Sign Out. Please consult.

Skype is one of the most used chat software today because of its simple, easy-to-use interface, high stability, allowing sending and receiving files directly. However, there is a small inconvenience, that is when the account is exited, the icon will still be under the Taskbar whether you close it or not. Today, TipsMake.com will guide you how to completely turn off the Skype icon under the Taskbar after Sign Out. Please consult.

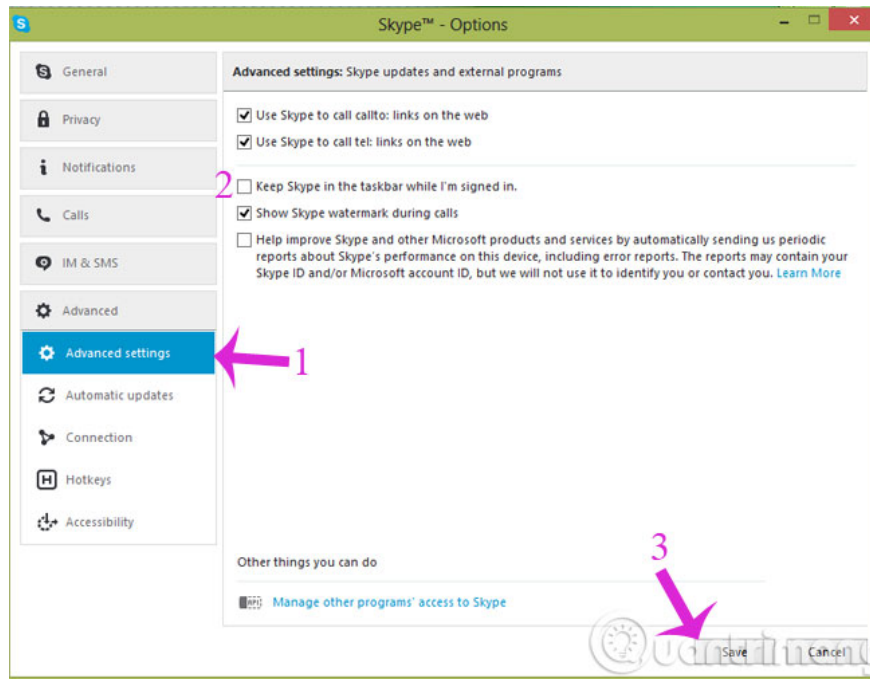

Step 1:

From the **Skype** interface, click the **Tools** menu and select **Options** .

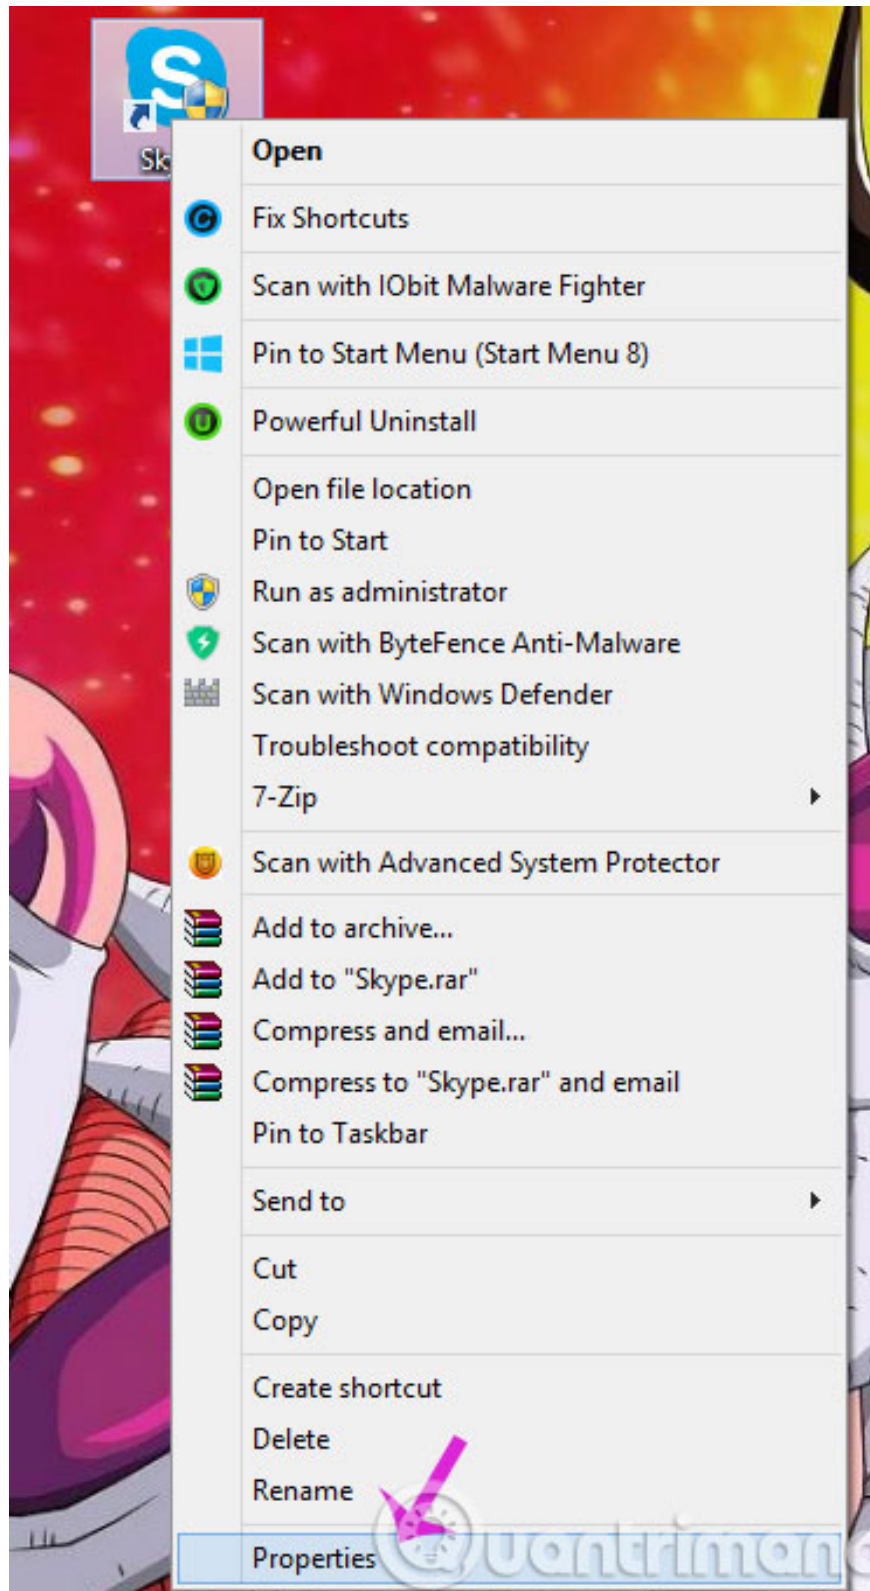

Step 2:

In the **Options** interface, click **Advanced** > **Advanced settings**, then uncheck the **Keep Skype in the taskbar while i'm signed in** . Then, click **Save** to save.

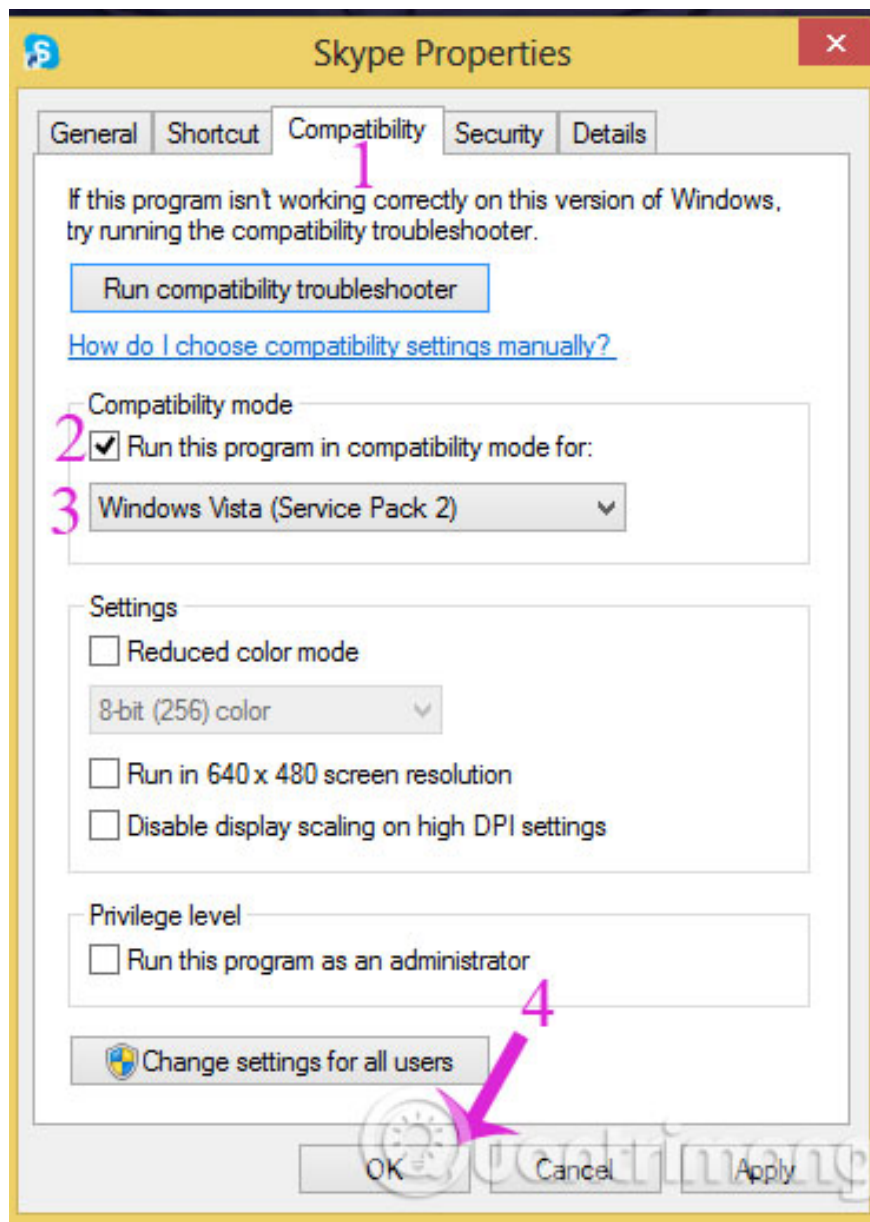

Step 3:

Right-click the **Skype** icon and select **Properties**

Step 4:

In the **Properties** dialog box, select the **Compatibility** tab and check the **Run this program in compatibility mode for line** and select **Windows Vista (Service Pack 2)** in the section below. Then, click **OK** .

1. 3 simple ways to block ads on Skype
2. How to make a Skype call on the browser
3. Log in to multiple Skype accounts at once on Windows

Good luck!
