

Types of energy drinks in PUBG

Besides the weapons in PUBG, energy drink items will also help players preserve their lives, adding opportunities to destroy opponents.

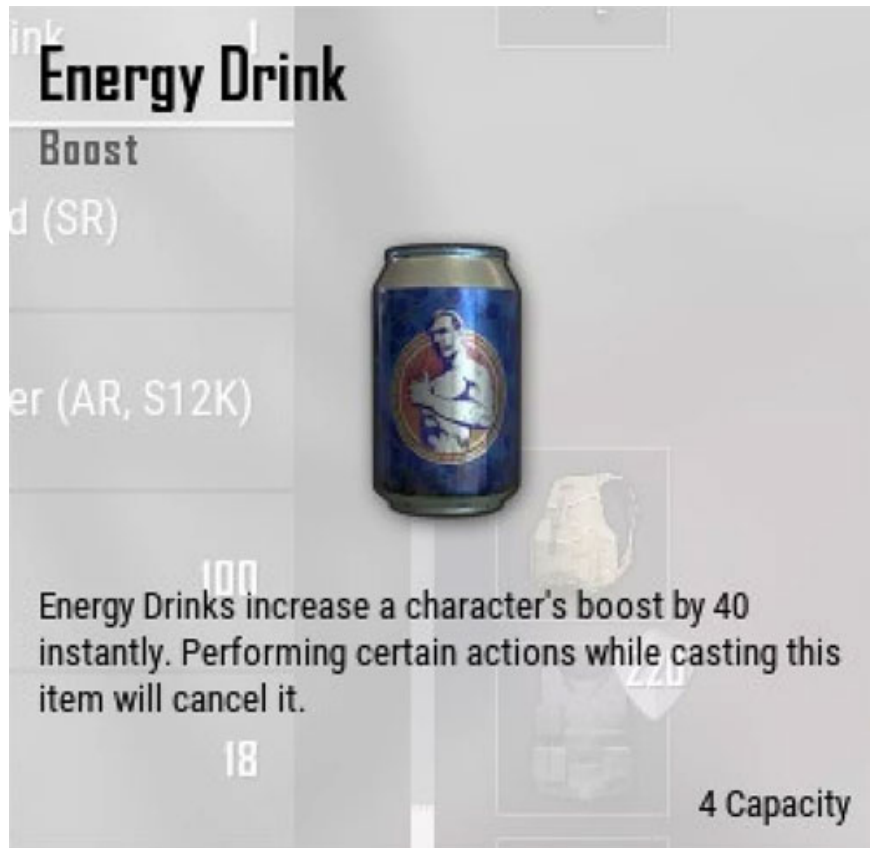

Items are one of the most important and necessary elements when we play games, especially in survival shooter games such as Rules of Survival or PUBG. In the game PUBG has many different types of items, including energy drinks. This item will help speed up the character, increase the power of the character, combined with healing items will help increase blood faster than usual. Let's review the energy drinks in the game PUBG.

1. These accessories are indispensable in PUBG
2. Bullets for each type of gun in PUBG
3. Loot locations in PUBG Mobile

Types of energy drinks in the game PUBG

1. Energy Drink

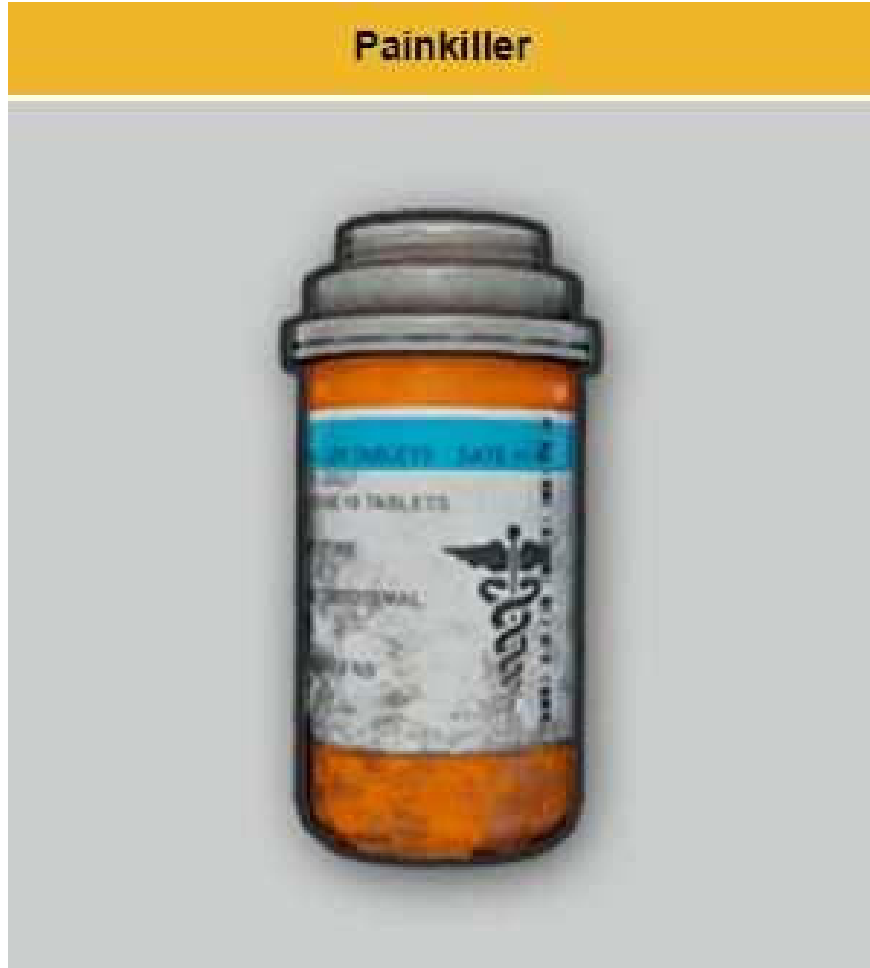

This type of energy drink will help the player to increase its power by 40%, the healing speed will also be increased, when taking this energy drink. We can use more than 10 cans in an hour without any effect on the player. This type of energy drink will be suitable when combined with healing items.

2. Painkillers

This type will increase 60% of the player's booster bar, increase health faster, use time longer, increase the running speed of the player. This type of item will be suitable for use when running on a roller, accelerating in the wheel when you have no means. Or with dangerous combat situations, we can also use this energy drink.

Painkiller

3. Adrenaline Syringe

Adrenaline Syringe is the most powerful energy drink on the list. Players will rarely meet them on the map but only found in the relay boxes. This type of water will increase 100% of the booster bar, recovering more than 80 HP points.

Each item in the PUBG game will have different uses and the right time to use them. If you choose when you need to use items that will promote their effect, greatly help the player's game posture.
