## Asus UX21A

Asus today started selling UX21A models in the US market for only \$ 800 (equivalent to about VND 16.8 million). This price is quite attractive by most current models ultrabook are priced at more than 20 million, especially with models with 11.6-inch screens. UX21A in Vietnam currently only has Core i7 chip version and the price is over 28 million VND.

At the lowest price mentioned above, users can own the Asus UX21A-1AK3 with quite good configuration including Intel Core i5-3317U processor, 4 GB RAM, 128 GB SSD hard drive and Windows 7 Home Premium operating system pre-installed.

However, the price also comes with a screen that only has a resolution of 1,366 x 768 pixels. It weighs less than 1.1 kg and 1.7 cm thin.

The product still has enough connections like the latest two USB 3.0 standard ports, a microHDMI port, a VGA port switch and a USB port to the LAN port. Asus said, the battery of the device can be operated for 6 hours continuously.
