

Unexpected Instagram error deleting user account

Since last Thursday, many Instagram users cannot access their accounts. Let's find out why this problem happened!

Instagram users find that their account is deleted because of unclear reasons. Some also receive the message 'Sorry, this page isn't available message' when trying to access their account. Let's find out why this problem happened!

1. How to post photos to Instagram from a computer
2. How to hide photos without deleting photos on Instagram?

Starting on Thursday (July 6 last), many people use seven frustrations on social networking sites when they cannot access their accounts. Some users said they were told to disable the account because they violated Instagram's terms of use even though they didn't commit any rules. Others are notified of account verification by phone number but then their account is also inactive.

Instagram's representative confirmed that no account has been deleted, the problem is due to a bug in the system and Instagram promises to fix this problem as quickly as possible.

We're aware of a bug that's causing some users to be logged out of their accounts. We're working to resolve this as quickly as possible.
