

Universities of suitable economics for candidates in Block A under 20 points

List of universities in Hanoi and Ho Chi Minh City. Ho Chi Minh City and all over the country, training in economics, enrolling students in Block A (Mathematics, Physics, Chemistry) has a standard score of under 20 points.

According to the National High School Examination Regulations issued by the Ministry of Education and Training, the National High School Exam Results will be published on July 7. After knowing the results of the exam, the candidates will go to register for the school, choose an industry for admission into their desired field of study. According to statistics, quite a lot of candidates registered to choose Block A and the number of candidates to study economics is also quite high.

So, many of you are wondering how to choose a school to suit your abilities as well as your grades. With only 15-20 points you can still choose schools with good training quality, not inferior to the top schools. In order to better orientate and increase the ability to pass immediately from aspiration 1, candidates should pay attention to the enrollment targets of the school and the standard score of the school over the years in order to increase the ability to enroll into the field of economics that we love prefer.

Below is the benchmark for schools with an economics major with a benchmark of less than 20 points in 2016 for them to refer to:
