

# Unlock the phone by typing the screen to the beat with Tap Locker

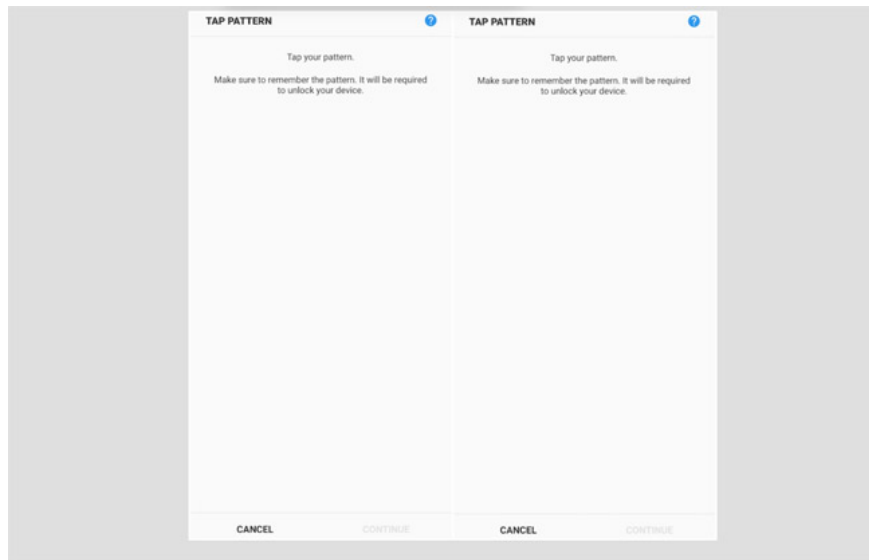

Tap Locker will make your boring phone more interesting than ever, this is an application that has just been released by Fossor coding programmers, allowing unlocking smartphones according to the tapping of the screen. Please try it out!

You are completely fed up with how to open a normal lock screen such as using a password, pin code, or drawing, . Then try "changing wind" for your mobile phone by touching the screen to the rhythm to Unlock the phone. Tap Locker will make your boring phone more interesting than ever, this is an application that has just been released by Fossor coding programmers, allowing unlocking smartphones according to the tapping of the screen. Please try it out!

Tap Locker is still in beta form, so there are still certain limitations, though it still brings new experiences to users. To use it, you can now download Tap Locker to your phone via the link below.

## 1. Download the Tap Locker app for Android

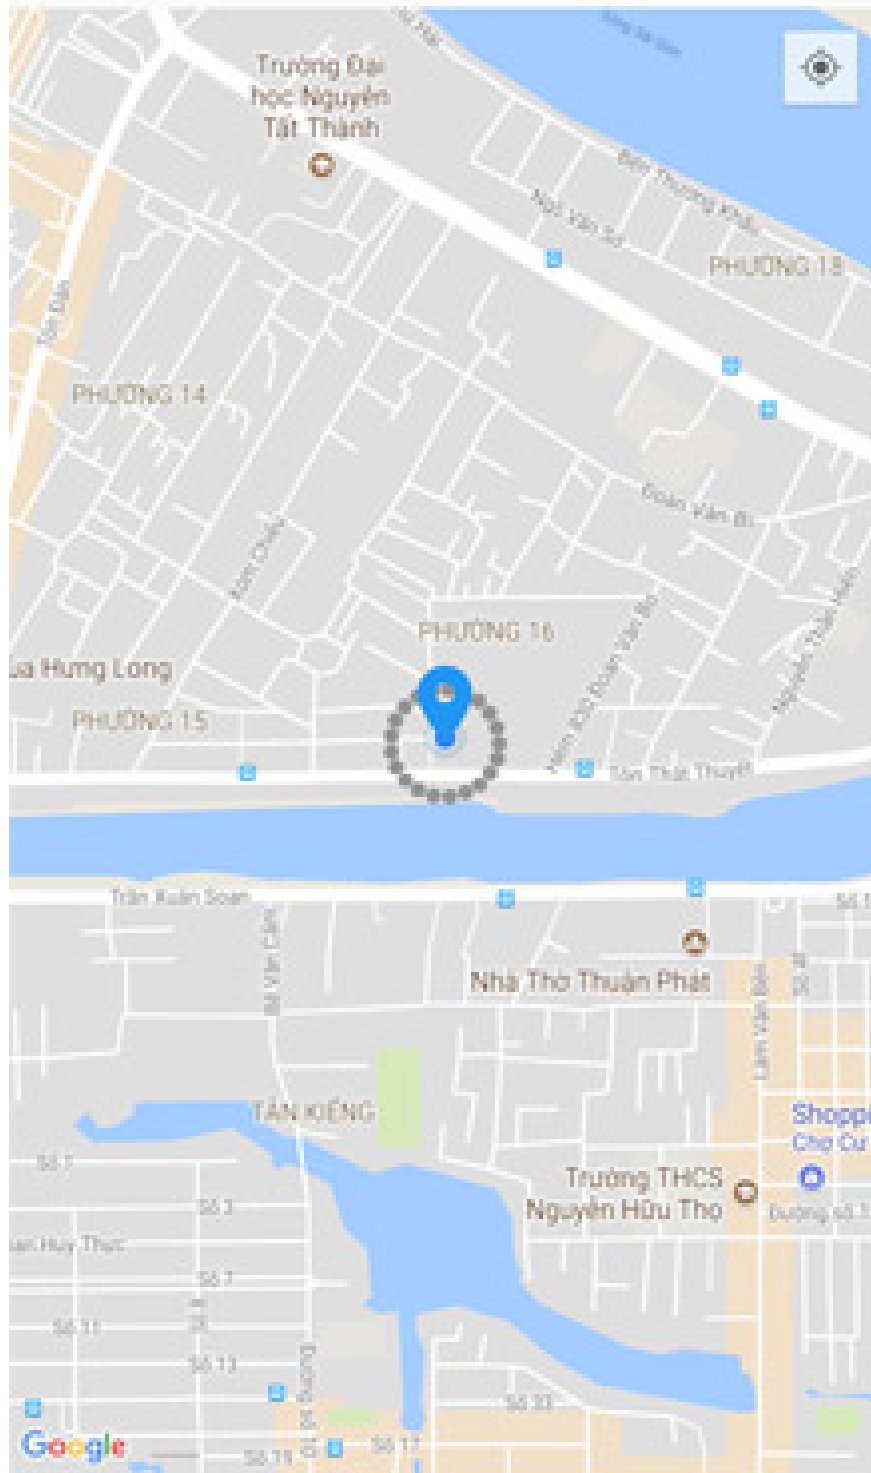

Once you have downloaded and installed successfully, you need to grant some permissions to the application. Then, open Tap Locker and go to Lock screen tap pattern to create a rhythm to open the screen to your liking.

The Trusted Place feature of Tap Locker also helps you unlock your phone when you are in a designated trusted area.

## SELECT LOCATION

Search

SELECT THIS LOCATION

In Notification area, you can also set how to display notifications such as locking always or displaying the entire content, or just displaying the logo.
