Extracting Zip files, RAR does not need to install software with the online file decompression tools that we introduce below will save you a lot of time when extracting files without worrying about working with the parts Soft extract trouble.

Extracting Zip files, RAR does not need to install software with the online file decompression tools that we introduce below will save you a lot of time when extracting files without worrying about working with the parts Soft extract trouble.

To be able to compress and decompress data, users will definitely think of some famous software like 7-Zip or WinRAR. In it, WinRAR allows users to use trial version and 7-Zip will be free version. Also, if you want to use it quickly, do not want to install these software, or in case the extracting software has an unusable problem, you can replace it with some online file compression and decompression services. online.

These services work professionally and are as effective as the decompression software installed on computers. You do not need to install the software, but just download the data and choose the purpose of processing is to compress or decompress the data. The following article of Network Administrator will introduce you to some data compression and decompression services, absolutely free.

Extract ZIP file, online RAR with extract.me

Extract.me is a compact and easy-to-use online tool that can extract more than 70 types of compressed files, such as 7z, zipx, rar, tar, exe, dmg and more. It has a Vietnamese interface (automatic translation), but it is not very accurate, but it also helps users to understand and manipulate more easily.

You can upload the compressed file to the tool by downloading the file from the computer (click **Select file**), get the file in Google Drive, Dropbox, even from a link.

If the file has a password protected, the tool will ask you to enter the decompression password. After extracting files can be downloaded separately or compressed in ZIP format (can be extracted on Windows without installing software).

As in the example below, you can click **Save all as Zip** to download the entire file, or click **Microsoft Office 2019.txt** to download each file to your computer.

Unzip Zip and RAR files with Unzip-online.com

1. <https://unzip-online.com/en>

The service allows extracting data with 2 popular formats currently ZIP and RAR with a capacity of up to 200MB. At the main interface of the service, we click on the **Uncompress file** to download the data.

Unzip-online.com

At unzip-online.com you can unzip .zip and unrar .rar files for free. It is useful for at school/office where winrar/winzip is not available!

Uncompress files

Next, click the **Choose file** button to download the data you want to extract to the service. Unzip-online supports downloading compressed file formats .zip, .rar, .7z, .tar. Then continue to press **Uncompress file** to Unzip-online to process and proceed to extract the uploaded data.
