

US police scramble to buy tools to unlock all iPhones despite the price of up to \$ 30,000

GrayShift has announced a product that can unlock all iPhones despite being in iOS 11 called GrayKey. Soon, this tool attracted the attention of the American police force. Many US federal agencies have purchased GrayKey.

GrayShift has announced a product that can unlock all iPhones despite being in iOS 11 called GrayKey. Soon, this tool attracted the attention of the American police force. Many US federal agencies have bought GrayKey, like the Maryland and Indiana state police . and others are planning to buy this tool like the US Secret Service, FBI, .

Grayshift is a company of former Apple employees. GrayKey has a very high price, USD 15,000 for the version that can be used 300 times and must connect to Grayshift's server in the first set up. If you want to be able to unlock unlimited and can be used on all networks, without connecting to Grayshift, customers will have to spend an amount of \$ 30,000.

GrayKey, the tool that can crack all iPhone.

But even the manufacturer cannot be sure of the exact time that GrayKey can help unlock the iPhone. It works by importing a series of passcode into your iOS device until right, this process can take several hours, even a few days.

GrayKey was released earlier this year and since then, it has quickly become the most famous legitimate iPhone unlocking tool on the market.

Currently Apple is still working on ways to increase security on iOS and vulnerabilities that allow GrayKey to work will definitely be considered for future release. Then, GrayKey will become useless. From now until then, police can still take advantage of this tool when needed.
