

# Users can already experience HDR of Netflix on Windows 10

Recently, the announced Netflix movie service will support High Dynamic Range (HDR) content for applications on Windows 10 and Microsoft Edge browser.

Recently, Netflix movie service has announced that it will support High Dynamic Range (HDR) content for applications on Windows 10 and browser Microsoft Edge helps computer users and Windows tablet devices get experience. entertainment, watching movies better.

To view HDR movies on Netflix, the user's computer needs to meet the following requirements:

1. Intel 7th generation processor or above to support HDR10 content decoder.
2. Integrated Intel GPU or NVIDIA GeForce 1050 or higher.

Unfortunately, AMD's CPU and GPU are not currently supported. Hopefully, next year, there will be more hardware devices and PC software supporting HDR.
