Guide to designing online logos on DesignEvo

Step 1:

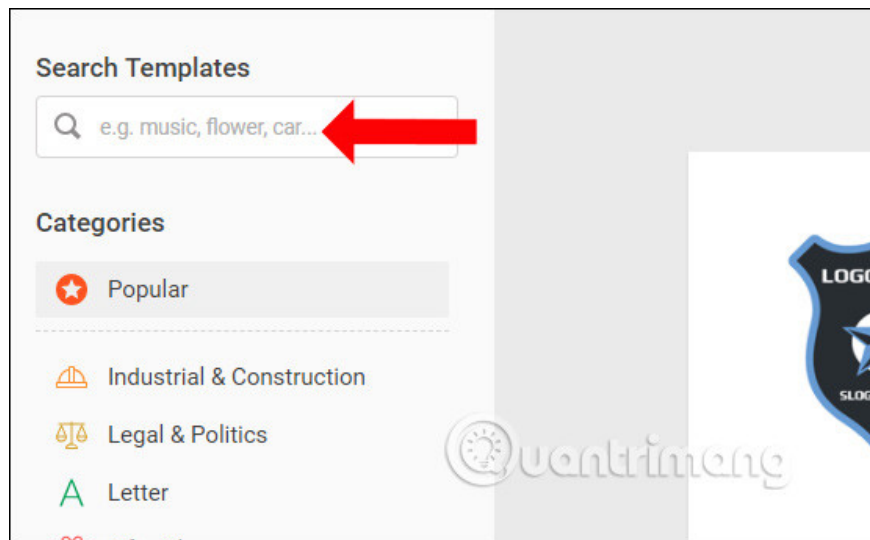

Click on the link below to access DesignEvo's homepage. At the interface of the home page click on the **Make a Logo** button.

1. <https://www.designevo.com/>

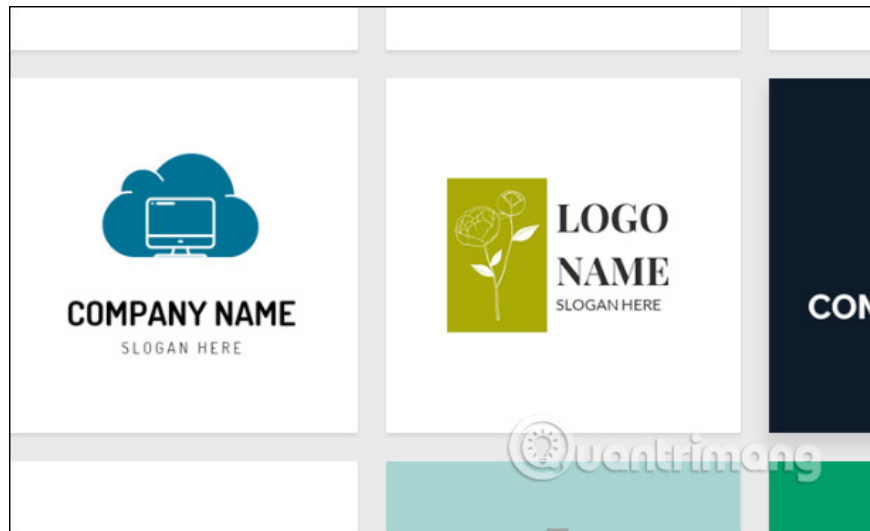

Step 2:

Switch to the new interface with logo creation themes in different fields. We can also click the keyword field on the horizontal bar above to search quickly. Click on **the logo theme** that the user wants to use.

Then you look to the right to see the logo templates according to the theme that the user has chosen. Click on the logo you want to use.

Step 3:

Display the necessary information input frame including **Logo Name** (brand name, business, company, individual) and **Slogan** . Click on the **Get Started** button to start the logo design process.

Enter Your Logo Name and Slogan

Get Started

Skip

Step 4:

Next, the user will switch to the logo editing interface. First we can **adjust the font** used in the logo. The font will be divided into traditional Classic style and Art art typeface. Depending on the logo, we choose the font.

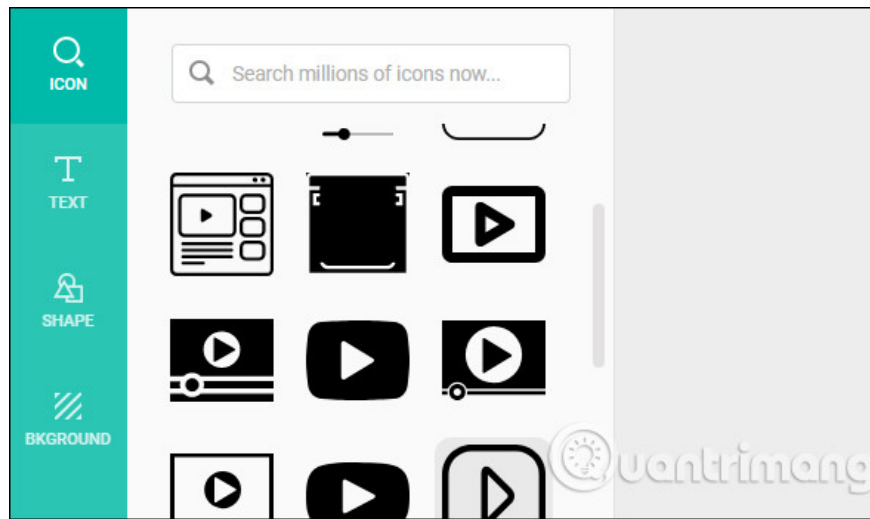

Click on the name of the logo and Slogan and then select the font. We all adjust the size and position of the elements that appear in the logo when the new typeface is applied.

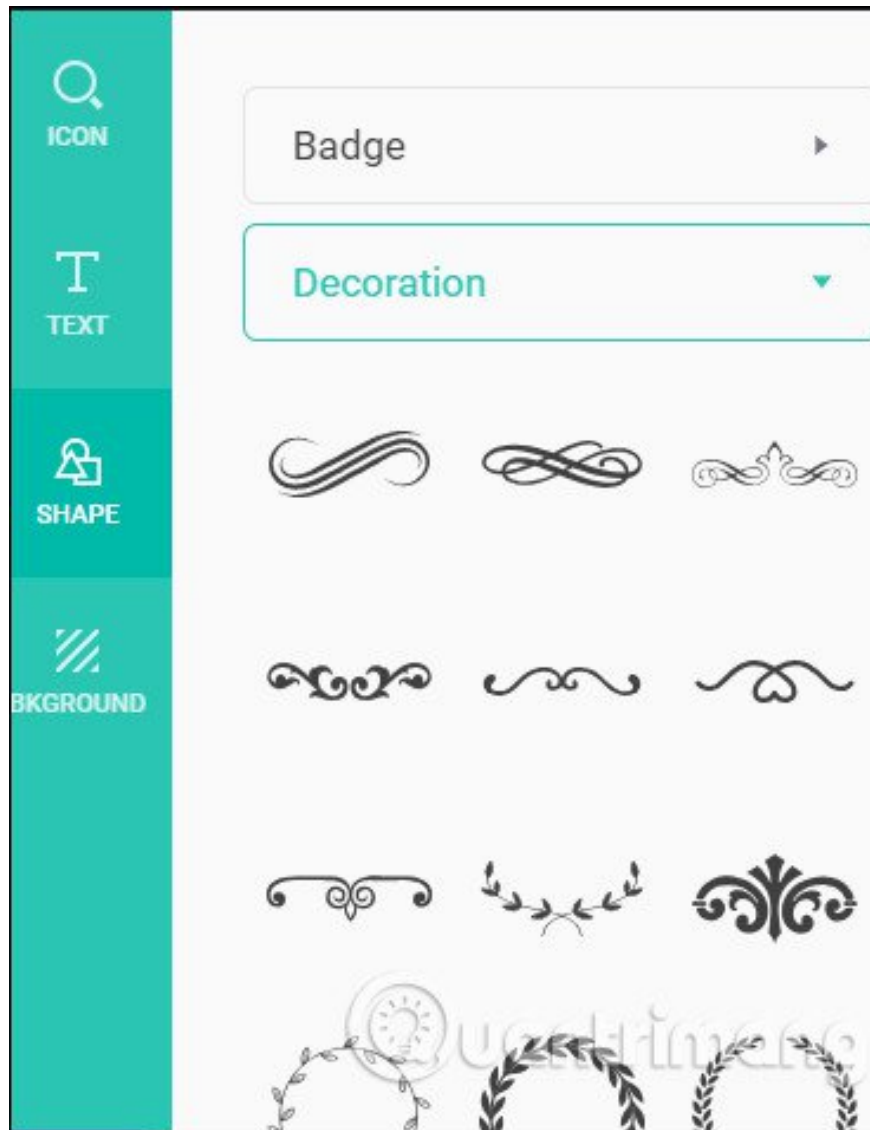

Step 5:

The **Icon** section will have some icons based on popular search keywords. Click on the available keyword, or enter the keyword in the box to search for the symbol to use.

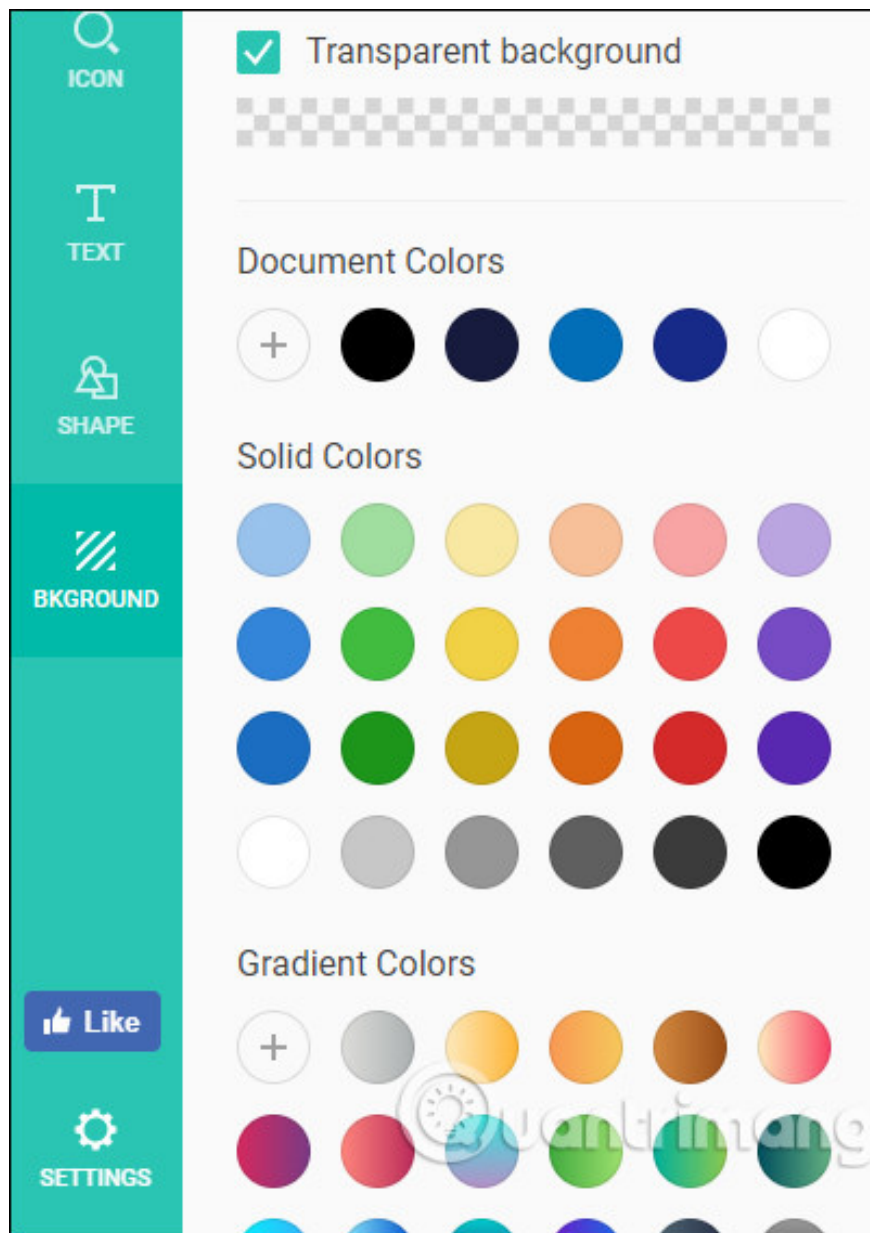

Step 6:

The **Shape** section to insert more shapes or more decorative motifs for the logo.

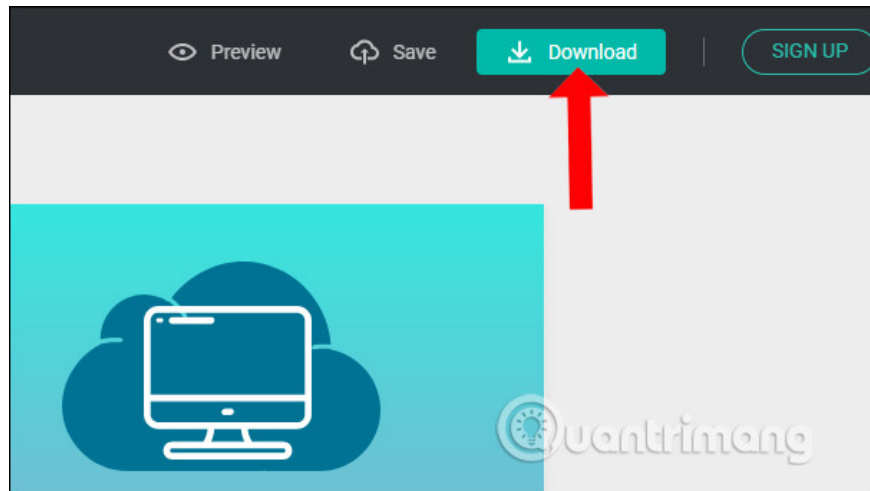

Step 7:

The **Background** part will select colors for the background. If you want to make the background transparent, check the Transparent background. If not remove the area then select the background color below. You can choose monochromatic colors at Solid Colors or Gradient Colors combination colors.

Step 8:

Once edited, click **the Download button** in the top right corner of the interface to download the logo.

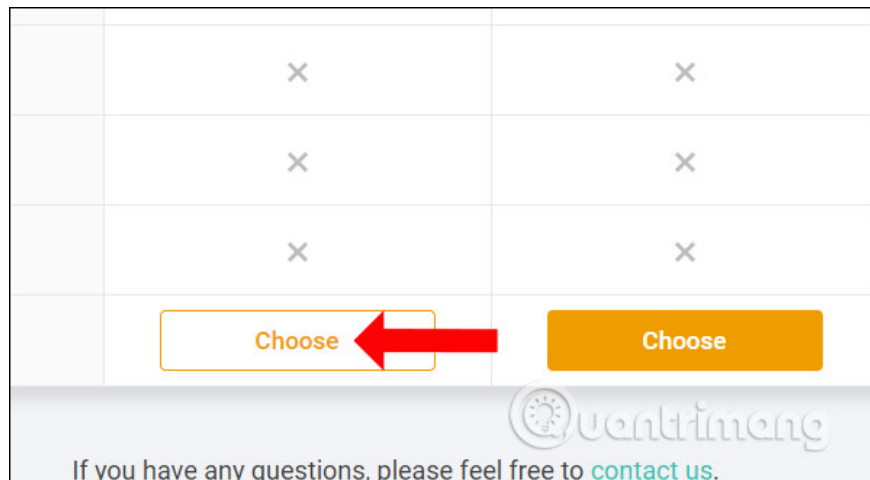

Step 9:

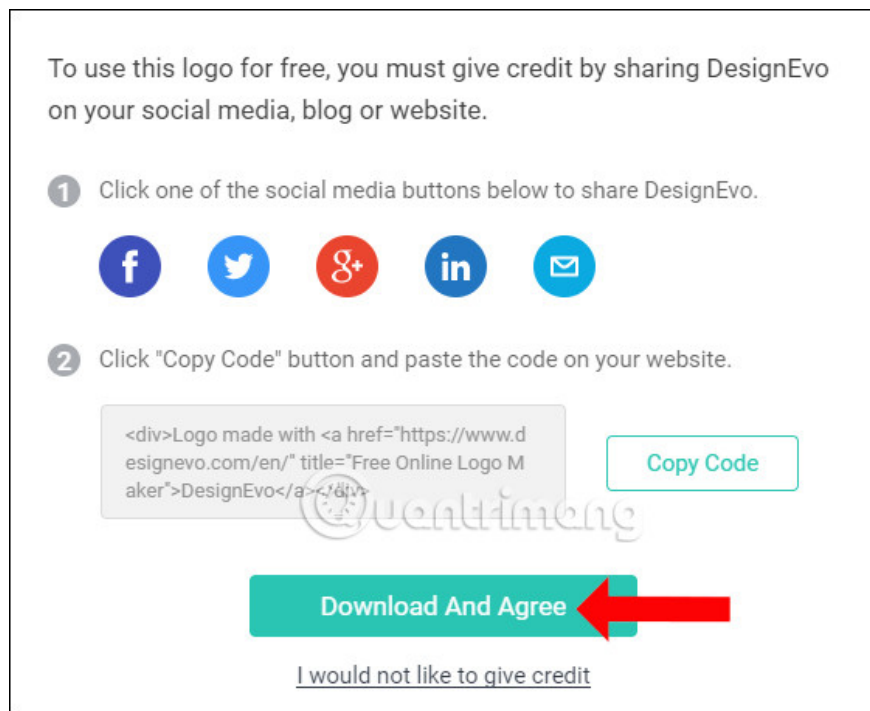

There will be 3 options for downloading logos with different features.

1. Free: Download images at a small size of 500 x 500 px.
2. Basic: Download images up to 5000 x 5000 px, transparent background logos, save designs to edit them as needed.
3. Plus: Maximum downloadable image file size of 5000 x 5000 px, transparent background logo, save design template to edit anytime, format JPG, PNG, PDF and Vecto. Logo copyright registration.

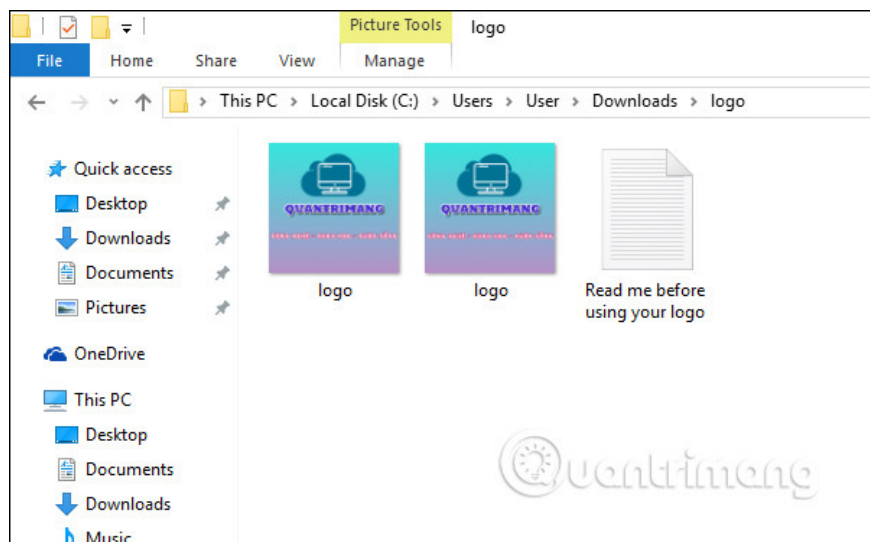

Click **on the Free package** to download the logo.

A new interface appears and click **Download and Agree** to agree to download.

The logo file will be downloaded in the .zip file format. You unzip and will see the logo folder in PNG and JPG format.

By DesignEvo website design online logo, you have your own logo to promote brand, product or website. How to use DesignEvo is very simple, it does not take time to create your own logo, but we can rely on the models available and designed to use for your brand.
