

# VAIO officially comes back with a unique 'framed' tablet hybrid laptop

The VAIO Z promises to be the new flagship of VAIO for \$ 1600 and can be switched from laptop to tablet quickly, while the VAIO Z Canvas is a cheaper, smaller choice and comes with a keyboard. disassemble.

**Sony sold its VAIO brand to JIP (Japan Industrial Partners) earlier this year when their computer market share was declining. The tech community in general and the fans of the brand in particular must have been sad to think about the end of the once-iconic VAIO computer.**

However, under the ownership of the new boss, VAIO has continued to introduce its two hybrid tablet laptops as confirmation for a return. VAIO VAIO Z Canvas was officially launched today in Tokyo, VAIO Z and VAIO Z Canvas.

The VAIO Z promises VAIO's new " *flagship* " for \$ 1600 and can switch from laptop to tablet quickly, while the VAIO Z Canvas is a cheaper, smaller option and comes with a keyboard. Removable.

These two laptops of VAIO are designed from carbon aluminum shell. VAIO Z owns 13.3-inch screen and Intel Core i5 or core i7 processor, SSD hard drive with boot time of only 0.3s. VAIO named its laptop " *MONSTER* ". Possessing a terrible configuration, outstanding speed, however, the battery life of the VAIO Z is also impressive when it comes to 15.5 hours - something predecessor laptops have never done. However Z a "computer monster", but says that will not chew through electricity too quickly.

Besides, VAIO Z Canvas is also called " *tablet monster* " with 12.3-inch screen, Core i7 processor, 256GB SSD hard drive, and internal memory of up to 16GB. Like the big brother VAIO Z, Z Canvas can also change its shape. These two tablet hybrid laptops come with a detachable keyboard, allowing the user to build it up like a laptop, or use the stylus as a tablet. Currently VAIO Z is officially available today, and customers who want to use Z Canvas have to wait until May 2015.
