Three new titles will appear when released for Android and iOS devices via Viber Games, including: *Viber Candy Mania*, *Viber Pop* and *Wild Luck Casino*. The first two features users will notice in Viber sticker are Violet and Legcat.

Viber Games uses a new API called Viber Connect, which allows players to log in with Viber ID to invite others to play, track scores on the board, show their achievements and unlock, see other people playing. What and send gifts. The games will be advertised through play in the Viber app and will be free to download via Google Play or the App Store.

In addition, players can expect more than the titles of characters from Sticker Market Viber. Viber Games is now available for Belarus, Malaysia, Israel, Singapore, Ukraine and the rest of the global countries will receive in January.
