

Vietnamobile completes 4G coverage in 20 southern provinces and cities

Yesterday (January 17, 2019), Vietnamobile officially announced the completion of the 4G network upgrade for all 20 provinces in the Southern region. This helps mobile users of this network get a better experience.

Yesterday (January 17, 2019), Vietnamobile officially announced the completion of the 4G network upgrade for all 20 provinces in the Southern region. This helps mobile users of this network get a better experience.

On the market today, Vietnamobile is the first carrier to apply carrier-class technology to scale up 4G networks when combining both low-band 900 Mhz and high-band 2.100 Mhz.

According to GSO (General Statistics Office), Vietnamobile's growth rate at the end of 2018 reached 225% compared to the same period last year.

In addition to expanding 4G coverage in 20 southern provinces, Vietnamobile also introduced to the new 4G Super Saint UP SIM card. With this new SIM, users only need to charge 50,000 VND per month to get free 4G data every day, free texting and in-network calls every day, call the network at a competitive price.

In the near future, this network will spread 4G coverage nationwide to provide a comprehensive experience for everyone.
