

Visit the unique 'sky village' built on the roof of the shopping mall in Jakarta

This 'hot' residential area is Cosmo Park, a residential complex full of roads, houses, gardens and a swimming pool built right on the roof of the multi-function mall Thamrin City, in the middle of the center. capital Jakarta.

In recent times, netizens are "seething" because a residential area is built on the roof of a commercial center in the heart of Indonesia's capital Jakarta.

This 'hot' residential area is Cosmo Park, a residential complex full of roads, houses, gardens and a swimming pool built right on the roof of the multi-function mall Thamrin City, in the middle of the center. capital Jakarta.

Cosmo Park is divided into 5 blocks, rated from A to F. The apartments are built on 2 floors.

Cosmo Park was built 10 years ago, but until June last, when Shahrirbahar1 account shared on Twitter the 'village' image in the middle of the Indonesian capital, many people knew about this neighborhood. The drone photos (drone) posted on social networks surprised many people around the world with this unique design.
