

# Vivo launches the NEX 2 super product with 2 screens, 3 rear cameras, Snapdragon 845, and 10GB of RAM

Vivo has officially launched the second generation of NEX series called NEX Dual Display Edition. As its name suggests, NEX 2 is equipped with two monitors.

Vivo has officially launched the second generation of NEX series called NEX Dual Display Edition. As its name suggests, NEX 2 is equipped with two monitors.

NEX 2 does not have a front camera, to take selfie photos, the north user must use the rear camera and the second secondary monitor on the back. NEX's rear camera trio includes: main camera with 12MP resolution (f / 1.79, Sony IMX363 CMOS), a time-measuring sensor camera (3D TOF) and a 2MP depth measuring camera. According to Vivo's introduction, the 3D TOF sensor helps to identify faces faster, more accurately and improve security.

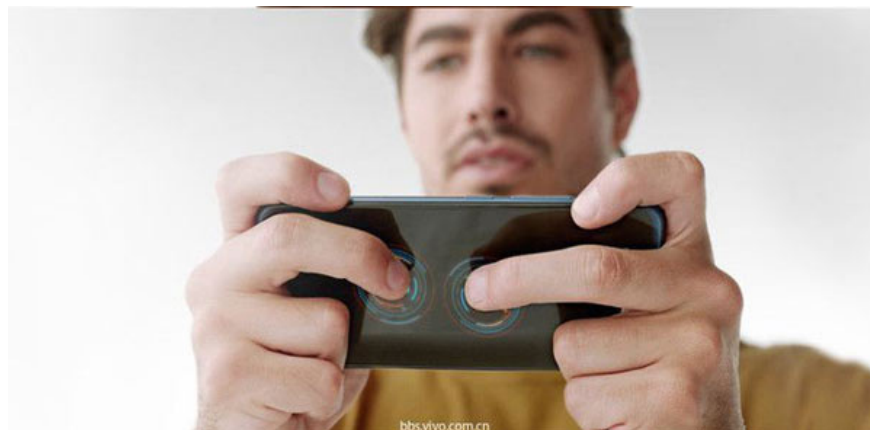

The back of the device has a circle called the "Lunar Ring." This is a notification LED that can blink and turn off the melody when the device is playing music or creating moderate light when selfie in a dimly lit environment. .

The front screen of NEX 2 measures 6.4 inches with FullHD + 2340 x 1080 pixels resolution. Meanwhile, the back screen has a size of 5.5 inches Full HD in 16: 9 aspect ratio, equipped with a separate voice speaker that allows users to perform all operations on the machine without turning to the main screen.

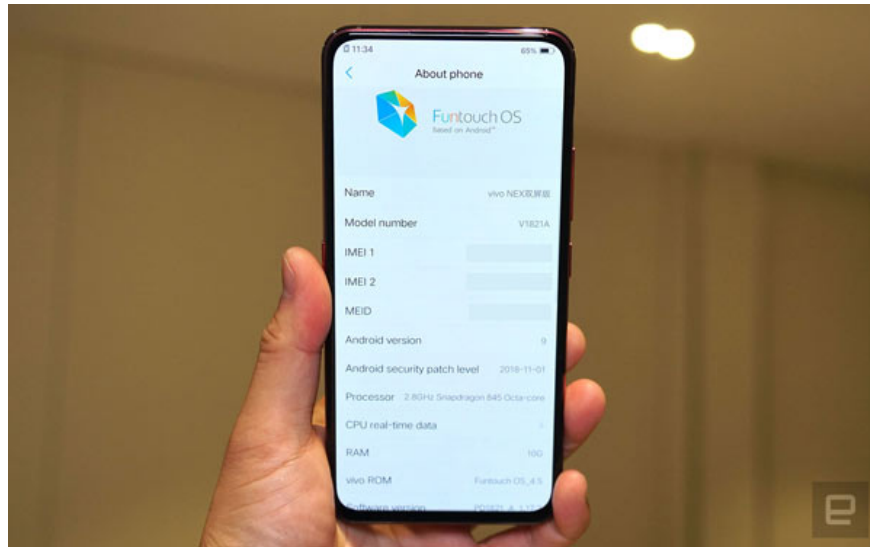

Both the front and rear screens are OLEDs, and are equipped with a fingerprint sensor in the screen.

To switch between two screens on the NEX 2, users simply swipe from the bottom of the screen to display the Control Center -> click the Shortcut in the lower right corner; Or use 3 fingers and drag from the left edge of one

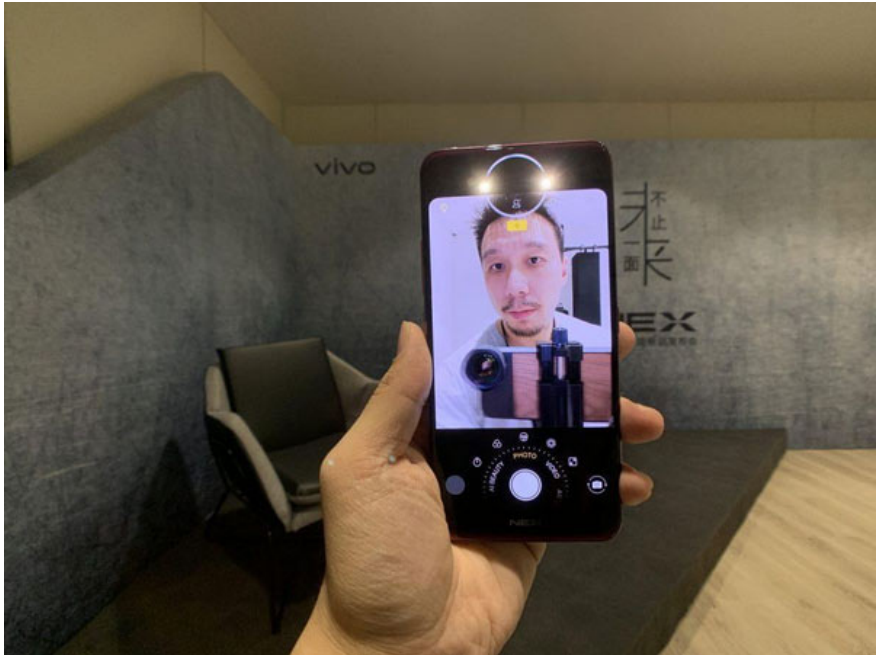

of the screens (this feature must be enabled in settings).

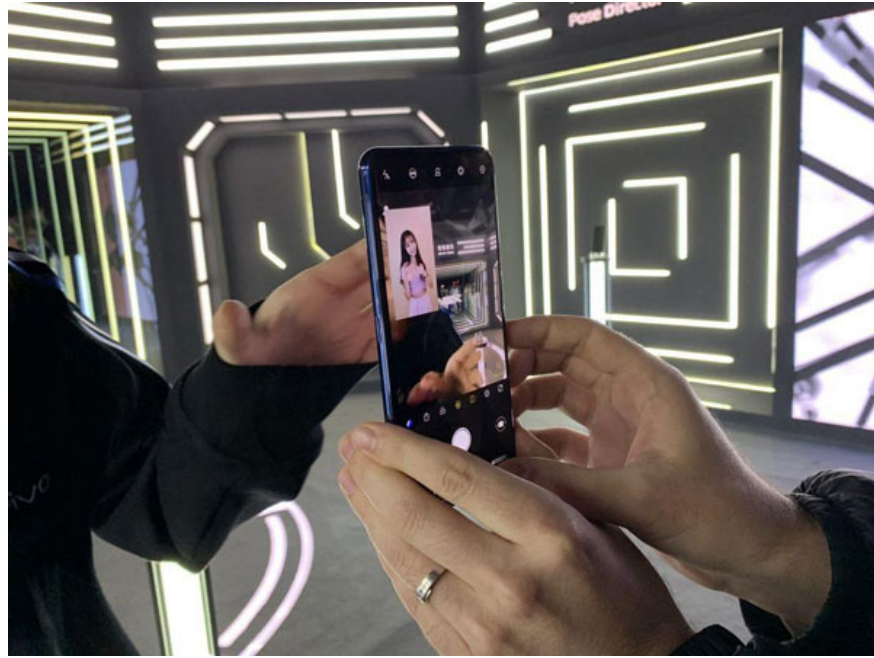

In terms of configuration, NEX 2 is equipped with Snapdragon 845 chip, RAM up to 10GB, 128GB memory, 3500mAh battery. In addition, it still has a 3.5mm jack and is supported with 10V fast charging via USB-C port. NEX 2 runs Android 9.0.

On December 29th, Vivo NEX 2 will be released on the Chinese market at a price of 4998 yuan, about VND 16.9 million.
