

# review Vivo Y51 (2020) : Put on a flashy shirt

Not only possessing a screen with beautiful display, Vivo Y51 (2020) also owns a luxurious design even in the mid-range segment.

Do you want to explore this new smartphone from the Vivo house ? Let's review Vivo Y51 (2020) in detail now.

## 1. Vivo Y51 (2020) owns a luxurious design

Vivo Y51 (2020) impresses me at first sight with its luxurious and beautiful design. On the back, you will see Vivo Y51 (2020) dressed in a beautiful gradient-colored shirt and pouring from purple to attractive turquoise green. With an impressive design style like this, Vivo Y51 (2020) has scored in the eyes of fans and conquered even demanding users like me.

The plus point in this generation Vivo Y51 (2020) is that the camera design is not too convex to make the phone need. Vivo has shown that it truly cares about users, not only in terms of aesthetics and quality but also in everyday use. This is a strong point not to be missed for Vivo in general and Vivo Y51 (2020) in particular.

Vivo Y51 (2020) is made of plastic, but with a unique combination of color cast style and glossy back, the phone's elegance is multiplied. Thanks to that, the machine doesn't look cheap at all. The experience of holding the device is very comfortable thanks to the curved back side to the sides, so you can feel secure to hold and use for a long time.

By the way, the back of the device is a bit easy to stick with fingerprints. Therefore, you should clean regularly to keep the device always shiny, and the back case, Vivo has donated one in the device box.

## **2. Vivo Y51 (2020) screen for beautiful display**

Talking about the screen, Vivo Y51 (2020) owns a screen size of 6.58 inches, with Full HD + resolution for sharp display. A high resolution screen on a large screen is essential, because multitasking feels much better on the device.

Vivo Y51 (2020) is optimized for the surrounding edges, so we feel the screen is big and gives more display space. Even the notch on the screen part is also made tidy, making the aesthetics of the Vivo Y51 (2020) significantly increased.

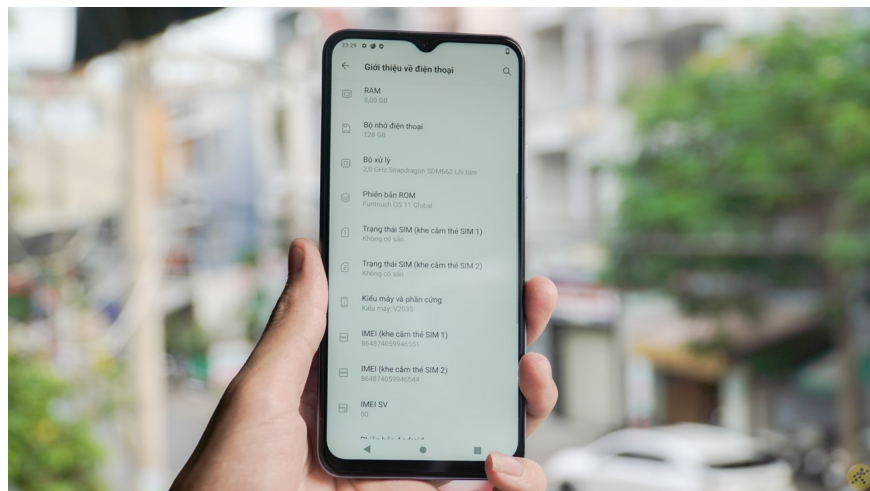

The screen surfing experience is good without a 90 Hz refresh rate, but if you have to spend more on a high refresh rate, the experience will be more enjoyable. And one more thing is that the device is integrated with an IPS LCD panel for high brightness and wide viewing angle, allowing you to use in a variety of conditions both outdoors and during low-light environments.

### 3. Vivo Y51 (2020) performance for a smooth experience

Before evaluating the performance of Vivo Y51 (2020) in detail, I would like to give you a quick review of the hardware parameters for you to see:

1. CPU: Snapdragon 662 octa-core.
2. RAM: 8 GB.
3. Internal memory: 128 GB.
4. OS: Android 11.
