

# Instructions for using Vov sticky note on Windows 10

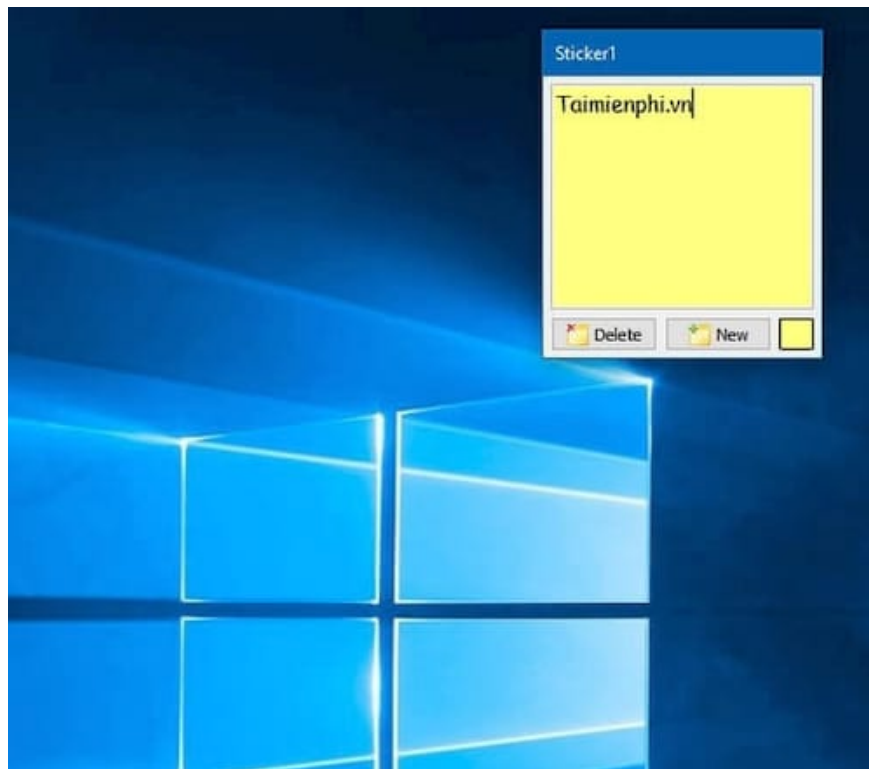

Instead of using expensive sticky notes, you can use Vov Sticky Notes to stick notes right on your computer screen. This is a convenient way to remind yourself if you often use a computer or laptop.

**Vov Sticky Notes** is a simple application that allows you to create notes right on your computer or laptop screen. You can customize colors and fonts to make notes easier to see and more vivid.

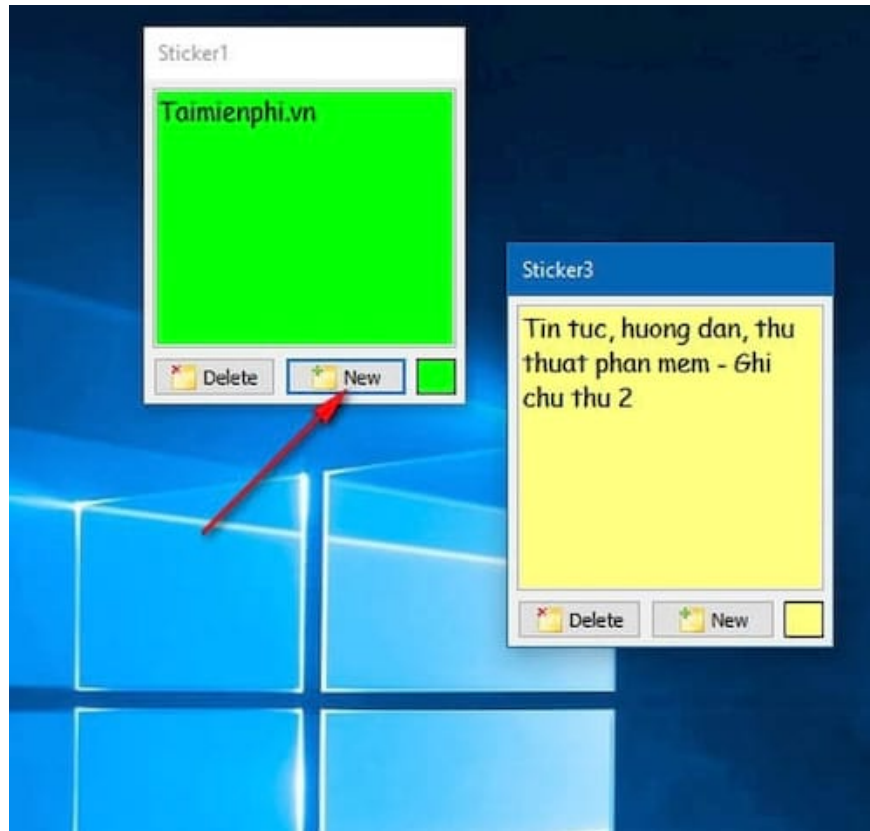

## How to use Vov Sticky Notes on Windows 10

*Step 1:* Download and install **Vov Sticky Notes** [here](#).

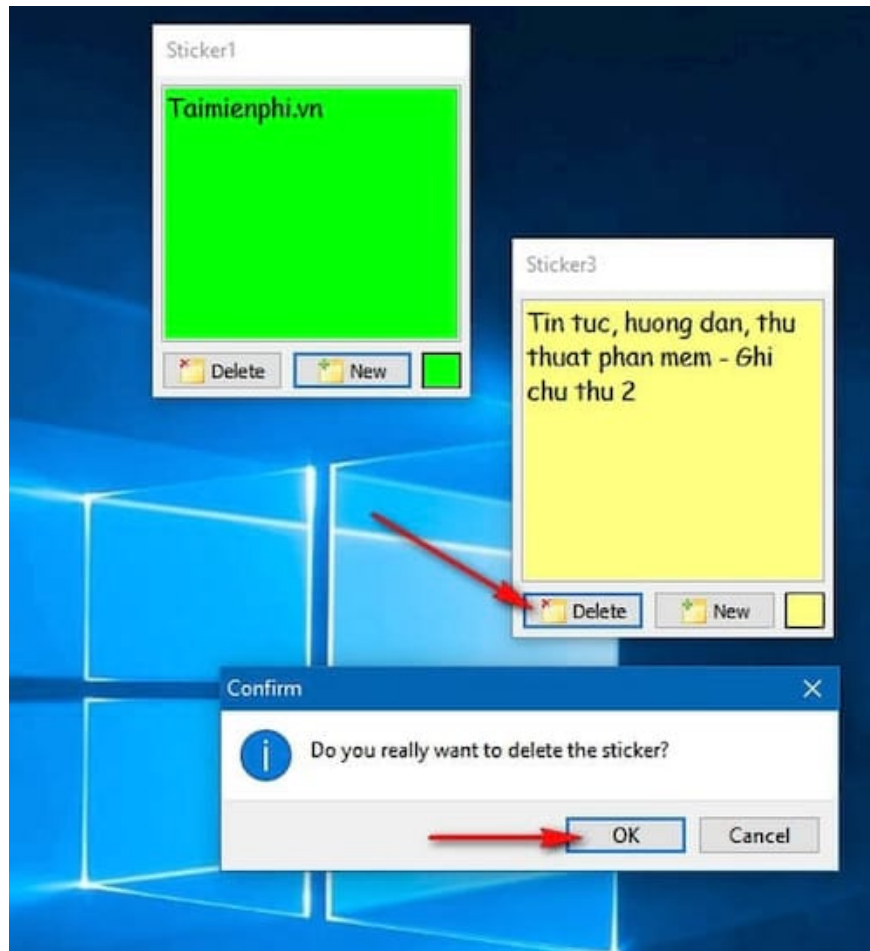

*Step 2:* After installation, a note will appear in the corner of the screen. You can drag the mouse to the edge or corner to stretch and expand the note space when you need to write more.

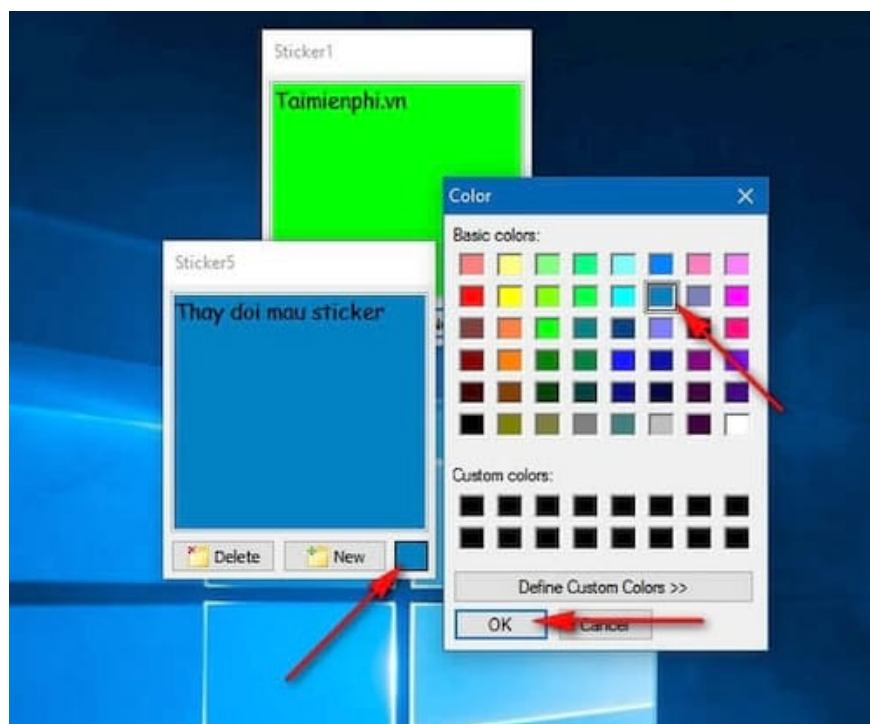

*Step 3:* To add a new note, click **New** .

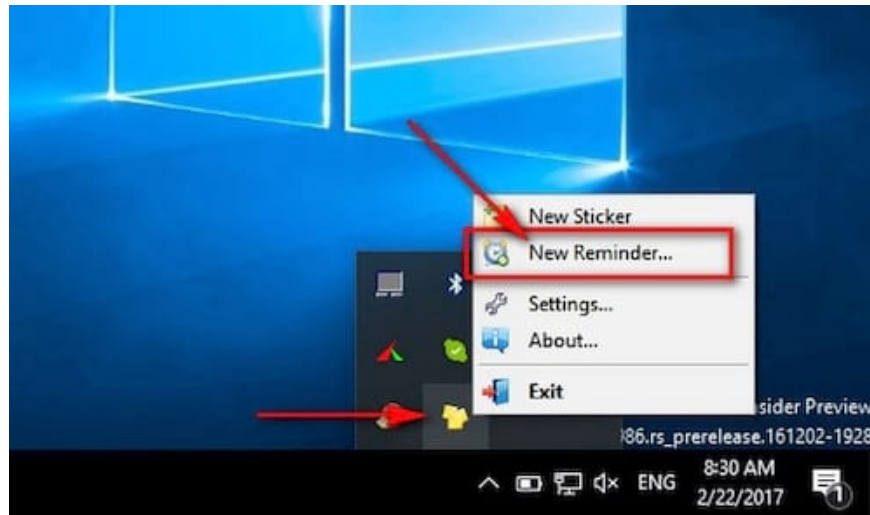

*Step 4:* Click **Delete** and click **OK** on the Confirm dialog box to delete any note.

*Step 5:* You can change the note color by clicking on the color box next to the **New** button , select your favorite color and click **OK** .

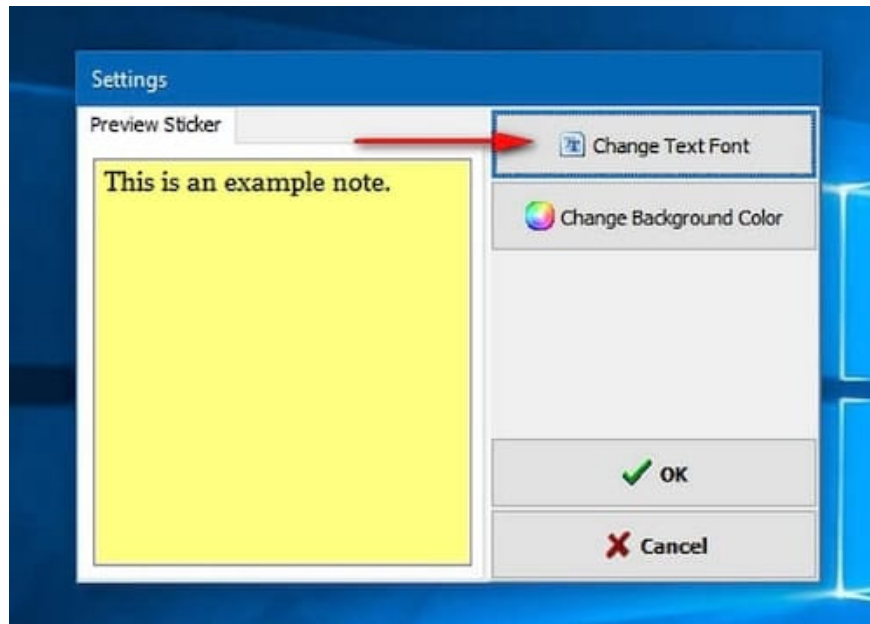

*Step 6:* To create a reminder for an important event, right-click on the **Vov Sticky Notes** icon on the Taskbar and select **New Reminder**.

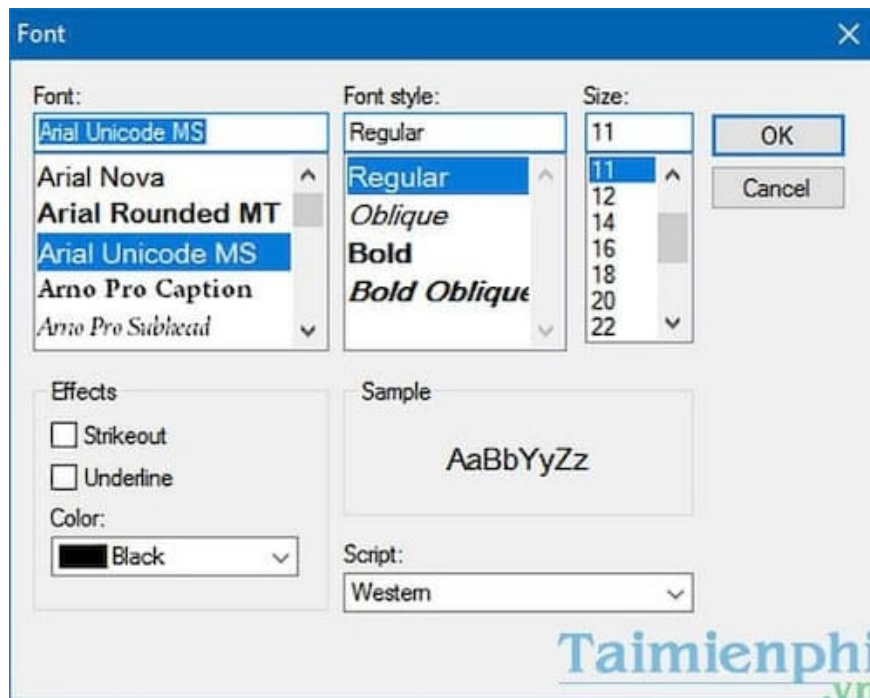

*Step 7:* In the **New Reminder** dialog box, you can choose to remind once (**Once**), hourly (**Hourly**), daily (**Daily**), monthly (**Monthly**) or annually (Annually). Select the alert time and note content, then click **Save** to save the reminder.

*Step 8:* If the font on **Vov Sticky Notes** does not display accented Vietnamese, you can change the font by clicking **Change Text Font** in the **Settings** section when right-clicking on the **Vov Sticky Notes** icon on the Taskbar.

Step 9: Choose the appropriate font, font style, size, effects and color to make your notes more recognizable and attention-grabbing.

Above is how to use **Vov Sticky Notes** on Windows 10 to create notes and reminders for important information. If you do not want to take notes on the desktop, you can **create notes on Google Chrome** to save necessary content.
