

VSEC implemented free website security review for small and medium enterprises

Vietnam Cyber Security Joint Stock Company (VSEC) implemented the program 'Free website review', using SafeSAI solution - comprehensive website protection solution 24/7, for small and medium enterprises (SME) in this July.

Vietnam Cyber Security Joint Stock Company (VSEC) implemented the program "Free website review", using SafeSAI solution - comprehensive website protection solution 24/7, for small and medium enterprises (SME) in this July.

SafeSAI solutions are developed by VSEC's engineers on a cloud-based basis and launched at the end of April 2011 at the Vietnam Martech event in Ho Chi Minh City. In early July, VSEC will bring SafeSAI to the 2019 Creative Business Cup event, one of the major international events connecting creative businesses held in Denmark.

SafeSAI is responsible for supporting agencies, organizations, businesses to protect websites and data security with the main features including:

1. Monitor website 24/7 and promptly give warning when an incident occurs.
2. Review and detect website security vulnerabilities.
3. Provide recommendations and give instructions to patch website security holes from a team of consultants.

With SafeSAI, users can rate their website anywhere, anytime to detect and prevent network attacks in the future.

1. To use the 'clean' Internet, users will have to pay 35 USD / month, are you ready?
2. A new error on Windows 10 caused a significant slowdown in shutdown speed and a temporary fix

Small and medium enterprises need to check their website security, please visit the link below, fill in the correct information and submit the request.

After conducting the review, VSEC experts will send the enterprise a comprehensive report on the website of the unit and give support and advice from the expert team.

In addition, with SafeSAI solution, VSEC also offers 3 service packages for enterprises and organizations to choose depending on the budget and use purposes:

1. Package Basic: Use scanning service and support patching holes for website, price 1.2 million VND / time.
2. Premium Package: Provides a full range of scanning and patching services. VSEC will support customers during the contract (at least 6 months), priced at VND 700,000 / month.
3. Business package: Providing services according to agreements with each enterprise.
