

## Wavy design of EeePC Karim Rashid 1008P

Asus EeePC Karim Rashid 1008P has an elegant, elegant look. The product combines rubber paint, print-mold roller technology and scratch-resistant metal materials to create a unique outer paint.

**Asus EeePC Karim Rashid 1008P has an elegant, elegant look. The product combines rubber paint, print-mold roller technology and scratch-resistant metal materials to create a unique outer paint.**

The product is designed by Karim Rashid - a famous designer with awards such as Reddot, Chicago Athenaeum Good Design, ID Magazine's Annual Design Award and the IDSA Excellent Industrial Design Award.

The wavy design of the machine makes the viewer feel the light moving and shimmering. This laptop is also very special because it is made by hand to create the perfection of each wave. Asus EeePC Karim Rashid has 2 fashionable colors: hot pink and brown coffee.

The product is compact and light with Chiclet keyboard, only 1 inch thick and weighs 1.1 kg. The borderless LCD screen uses LED lighting technology that looks very luxurious and has a high resolution of 1024 x 600. Asus EeePC Karim Rashid is equipped with the latest Intel Atom N450 chip resonating with 1 GB of RAM and 250 GB of hard drive memory gives a high performance but still saves energy.

In addition, the product also has a huge integrated storage capacity of 750 GB (250 GB of hard drive memory plus 500 GB of online WebStorage memory of Asus), 6-hour battery. This laptop is equipped with exclusive Asus technologies such as Super Hybrid Engine, which saves energy by 35 to 53% and Express Gate helps to connect to the Internet in just 5 seconds. Eee Docking provides an easy-to-use 'shortcut' to access individual software on the EeePC. 802.11n Wi-Fi technology makes wireless connection faster.

Asus is ranked among the top 10 IT companies in BusinessWeek's ' *Info Tech 100* ' group for 12 consecutive years. The computer company is also very interested in providing services to global customers with a 2-year international warranty program. In Vietnam, Asus has invested US \$ 4 million in two Royal Asus service centers in Hanoi and Ho Chi Minh City.
