Ways to collect rewards in Sonic Speed ?? Simulator

To earn rewards in Sonic Speed ?? Simulator, gamers need to collect many Rings. These Rings can be found everywhere, just like Chaos Orbs.

Just run into the lined up Rings that appear all over the game world to collect them. These Rings will disappear after the character runs over to collect, but they will respawn after a few minutes, so people can collect more times.

After having enough Rings, gamers can visit any vending machine to redeem some rewards.

Each vending machine has its own set of rewards and can preview them before deciding to buy. When using their Ring, the items people get from the vending machine are completely random. Players can view the percentages listed for their chances of getting a particular item.

Gamers can get Chaos and Trails from vending machines. Chaos are cute little creatures that follow around the player character, they help increase the amount of XP and Ring earned from each pick.

Trails are light trails that the character leaves when moving quickly and also help increase the amount of Ring and XP collected.

If more Rings are needed, enter the Obby Rings scattered around the world. Here, when completing the obstacle challenges, gamers will receive a large amount of Ring. Every 6 hours, players can retake the Obby Ring challenges.

Every few minutes, everyone will be able to participate in multiplayer races. Each participant in the race will be pitted against each other to see who is the fastest, and if they make it to the top 3, everyone will receive some Ring and XP as a reward for their efforts.

Finally, there are premium skins that can be purchased with Robux. Near the spawn point of Green Hill, there is a small hut labeled UGC.
