

Ways to login to Facebook

Currently there are many ways to log in to Facebook, compared to how to login Facebook with the previous Gmail address.

How to create a Facebook account as well as how to log in to Facebook is no stranger to anyone who uses this social network with the most 'population'. When the user first launched, **Facebook** just stopped using the Gmail address to create a Facebook account, as well as logging into the account.

However, after many updates, users can use the phone number, scan the QR code to access Facebook. Or especially with the latest Facebook web update, you can log in to multiple Facebook accounts on the same browser window. This increases the new experience for users when using Facebook, as well as affirming their position in the current technology village. So if you want to learn more about how to sign in to Facebook, follow the article below of Network Administrator.

Summary of ways to access Facebook

1. Log in to Facebook with Gmail:

This is a traditional Facebook login on Facebook. We just need to use Gmail account to register Facebook to login to Facebook is done.

1. How to sign in to Facebook with Gmail

The image shows the Facebook login interface. At the top, there are two input fields: "Email hoặc điện thoại" (Email or phone number) containing "@gmail.com" and "Mật khẩu" (Password). To the right of these fields is a blue button labeled "Đăng nhập" (Log in), which is pointed to by a red arrow. Below the input fields is a link that says "Quên tài khoản?" (Forgot account?). The main heading is "Tạo tài khoản mới" (Create new account) with the subtext "Miễn phí và sẽ luôn như vậy." (Free and will always be like this.). Below this are three input fields: "Họ" (Last name), "Tên" (First name), and "Số di động hoặc email" (Mobile number or email). A watermark "Quentimeng" is visible in the background.

2. Login your Facebook account by phone number:

When you add a phone number to Facebook, you can log in to Facebook with your phone number. Facebook will send the user a phone number verification code to ensure security. Finally you can use the phone number to access Facebook.

1. How to sign in to Facebook with a phone number

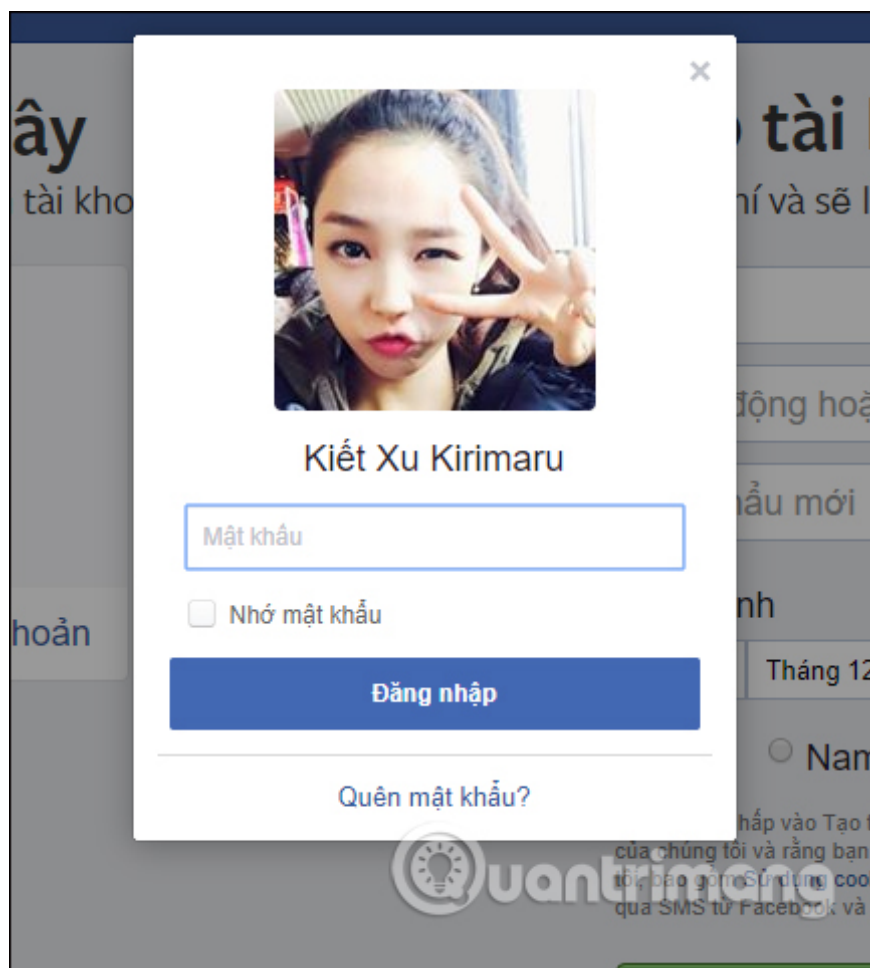

This screenshot is similar to the first one, showing the Facebook login page. The "Email hoặc điện thoại" field now contains "011". The "Mật khẩu" field is filled with dots. The "Đăng nhập" button is again highlighted with a red arrow. The rest of the page content, including the "Tạo tài khoản mới" heading and the input fields for name and contact information, remains the same. A watermark "Quentimeng" is also present.

3. Access Facebook by avatar:

After using the phone and Gmail address, Facebook continues to provide users the option to log in Facebook with a representative image. When you use multiple Facebook accounts and access back and forth, Facebook will automatically save photos. representative so that we can easily login at the next time.

Besides, we also have the option to save the password and avatar image for each Facebook account, or just save the login address and avatar image, not save the Facebook account password. Although according to the needs of each user, we can customize the mode to use Facebook avatar to log in.
