

Weapon, Trait, Perk Rankings in Hunty Zombie

Here is a ranking of Hunty Zombie weapons, traits and perks to help you choose the strongest build to kill zombies.

Hunty Zombie is a survival horror game that is very popular on Roblox . It is considered a game with deep gameplay, with many interesting systems: weapons, traits (secondary attributes) and perks (support skills). Combining these three elements correctly is the difference between you chopping up zombies or being surrounded by them.

To help you easily build the right loadout for every situation, here is the latest Hunty Zombie Tier List. Don't forget to get the latest Hunty Zombie code to redeem your rewards.

Hunty Zombie Tier Weapons

Weapons are the most important part of your loadout. They determine your playstyle, damage, and survivability.

Tier	Weapon
S	Dagger, Greatsword, Scythe
A	Katana, Dual Guns
B	Guitar, Baseball Bat
C	Axe

Tier S:

1. Greatsword: Legendary weapon with ultimate Wrathful Outcry causing area stun.
2. Scythe: Has the skills Frenzied Ravage and Searing Wound to slash a series of zombies in a straight line.
3. Dagger: Summons a clone to assist in combat.

Tier A:

1. Katana: Versatile but less powerful than S-Tier in AoE.
2. Dual Guns: Keep your distance and fire at the zombies.

Tier B:

1. Guitar: Good long range damage, surprise burst.
2. Baseball Bat: Starting weapon, easy to use, suitable for beginners.

Tier C:

1. Axe: No strong ultimate, weaker than other melee weapons.

In terms of weapons, Tier S is definitely unquestionable. The trio of Greatsword, Scythe and Dagger almost take the spotlight because of their effectiveness. Greatsword is not only powerful but also has an ultimate that can control a large area, helping to clear out zombies in just a few swings. Scythe is a true 'straight-line plow', sweeping away zombies wherever it goes. Dagger is more interesting with its clone summoning mechanism, creating a beautiful feeling while helping players control multiple targets at the same time. This is the reason why new players when looking at the Tier List all aim for these three items first.

Meanwhile, the Katana and Dual Guns in Tier A still hold a place for those who like a different style. The Katana gives a fast slashing feeling, smooth combos, but it is true that when compared to the Greatsword or Scythe, it still lacks the damage in a large area. Dual Guns are extremely suitable for those who like to play 'hit and run', keeping a safe distance but still dealing stable damage. However, the limitation of these two weapons is that they cannot really overwhelm when the zombies are in too many waves.

Traits Ranking (Weapon Attributes)

Traits are like 'enhancements' attached to weapons, increasing stats and combat effectiveness. You can reroll to get stronger traits.

Tier	Traits
S	Prodigy
A	Power 3, Focus 3, Beast, Fortune
B	Power 2, Focus 2, Agility 3
C	Intelligent, Agility 1-2, Power 1, Focus 1

Tier S

Prodigy: The most powerful trait, comprehensive buff: +15% Damage, +6% Attack Speed, +15% Skill Damage, slightly increases movement speed.

Tier A

1. *Power 3* : Increases base damage.
2. *Focus 3* : Increases skill damage by 15%.
3. *Beast* : Great for melee weapons.
4. *Fortune* : Helps farm gold faster.

Tier B – C

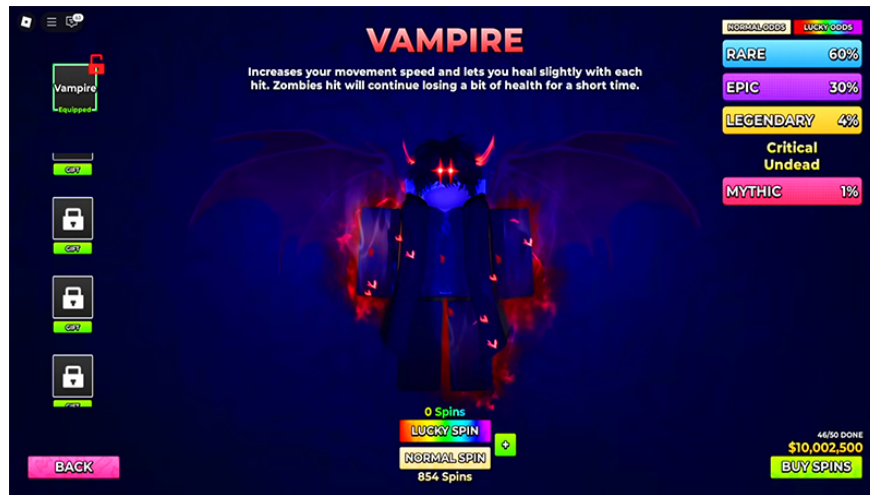

Mainly low level traits (Lv1 – Lv2), weaker effect. *Intelligent* helps gain more XP when killing zombies, *Agility* increases attack speed.

Advice: always aim for level 3 traits, especially Prodigy if available.

As for Traits, every gamer would agree that Prodigy is currently too 'overpowered'. Comprehensive buffs for damage, attack speed, skill damage and movement speed make this trait superior to the rest. Many players even jokingly say that 'with Prodigy, you can automatically get S-tier weapons'.

However, the value of other traits like Power 3 or Focus 3 cannot be denied – especially for those who have not rerolled to Prodigy, this is still a very good choice. Beast is also very good if you play melee, and Fortune helps you farm gold quickly, suitable for those who want to optimize resources in the long term.

Perks Ranking (Character Support Skills)

Perks are character-specific abilities that are activated after killing a few zombies and pressing E to use. Each perk only lasts for a short time, but can turn the tide of battle at the right time.

Tier	Perk
S	Vampire, Critical, DoubleDmg
A	Undead
C	Flame, Healer
D	Berserk

Tier S

1. *Vampire* : Increases running speed and sucks blood from zombies ? extremely strong.
2. *Critical* : Buff critical damage for 1 minute ? ideal when encountering bosses or crowded zombies.
3. *DoubleDmg* : Increases damage for the whole team.

Tier A

1. *Undead* : Increases movement speed + reduces cooldown, suitable for long-range attack builds.

Tier C

1. *Flame* : Burn zombies.
2. *Healer* : Heals allies.

Tier D

1. *Berserk* : Increases damage but only lasts 20s, much worse than Critical.

As for perks, Vampire is clearly the current king. It both buffs movement speed and sucks blood, making you feel like you're turning into an 'immortal monster' among zombies. Critical and DoubleDmg are also extremely powerful in big combats, especially when a boss appears.

On the contrary, perks like Flame or Healer are more for supporting situations, not always bringing explosions. Berserk is much weaker, mainly suitable for those who are new to the game or want to try a new build.

Combine suggestions

One of the strongest combos out there:

1. Weapon: Greatsword
2. Trait: Prodigy
3. Perk: Vampire

This combo allows you to slash AoE, buff damage all over, and heal when you hit ? extremely difficult to defeat.

Overall, these rankings not only help new players clearly orient themselves on what to choose, but also help veteran players optimize their gameplay. If you want superior power, just choose Greatsword + Prodigy + Vampire.

But if you want to experience variety, try Katana or Guitar with different traits – who knows, you might find a playstyle that suits you. That's what makes Hunty Zombie interesting, there is no absolute build, only the build that suits you best.
