

# What do you know about software technology P14

The following set of software technology quiz questions will provide you with lots of useful information to apply to your work, which will bring about high efficiency.

1. Question 1. Which model uses the most powerful tools and reusable components?
  1. Spiral pattern
  2. RAD model
  3. The model increases gradually
  4. Waterfall model
2. Question 2. Defect density is used to measure
  1. Quality end products
  2. Software project
  3. Production process
  4. Quality of maintenance
3. Question 3. Which statement is wrong when talking about the nature of software
  1. It is possible to order products
  2. Is an industrial product
  3. Is an executable product
  4. Not really the product
4. Question 4. Which test box uses white box technique (white box test)
  1. Regression test (regression test)
  2. Acceptance test (acceptance test)
  3. System test (system test)
  4. All answers above
5. Question 5. Considering the basic independent road, if there are 7 branching nodes, we have a number of independent independent lines
  1. 6
  2. 7
  3. 8
  4. 9
6. Question 6. Which of the following issues relates primarily to the design phase?
  1. Feasibility
  2. Data
  3. Project scope
  4. All answers above
7. Question 7. Use-cases is a scenario that describes
  1. How does software work when used in a given situation?
  2. How CASE tools will be used to build the system
  3. Construction plan for software products
  4. The test-case for software products
8. Sentence 8. Data dictionary contains descriptions of each

1. Software configuration item
  2. Software data object
  3. Software chart
  4. System of software notation
9. Question 9. In module integration, clustering (cluster) is used in
1. Integrated from the bottom up
  2. Big-bang integration
  3. Integrated top down
  4. Integrated increase ring
10. Question 10. In the architectural analysis method, architectural model description often uses a view
1. Data flow
  2. Module
  3. Process
  4. All of the above items
