In life KS is used in many different cases. However, in this article we only mention the meaning of KS in online games. Please read along and find out.

What does KS mean?

KS is an acronym for Kill Stealing. This is a very popular term used by gamers in online games such as Lien Quan, Dota . especially the League of Legends. This word is used in the sense that some people in the group have a strategy of not playing well, not having teamwork to fight against each other. These people usually only in the game waiting online to eat, when the teammate is close to finishing the opponent, then rush to fight to end the match and get bonus points.

Under any circumstance, when being KS will make everyone in the group extremely indignant and inhibited by the blatant public robbery of some teammates 'playful'. These problems often appear in some games like LOL or dota and still haven't found a way to solve them thoroughly.

KS is the action when the whole team is trying to fight with all professional tactics to prepare to defeat the opponent, but where from the sky falls a certain "ox" to come and destroy the opponent Quickly . After the game

is over, how much effort of the team is poured into the river, into the sea, naturally blatantly robbed, feeling really inhibiting for the team to play.

So if you do not want a KS to appear in your match, you should not let KS be the leader, the main person in the game. In any case, even if the team is surrounded and attacked by the enemy, you should not ask the help of the KS. Otherwise these components will destroy all the efforts of the group trying.

Hopefully with a few notes above will help you better understand what concept KS is.
