If you are wondering and have not found the answer to what is processing , then follow the article below of Network Administrator.

What is processing?

According to many people, it means that she is here.

Over the past few years, thanks to the social network that magnetism began to be widely known and used by many young people to chat with friends.

For example : regime Quyên, the regime will cut the wind . You are here that everyone except your sister-in-law does not call it processing

The origin of magnetism is rooted in the way of calling the Chinese people, but in the strong cultural interference of the three ethnic groups of Vietnamese - Chinese - Khmer, it has formed a characteristic vocative way, bringing together the common identity of the people. Southwestern region or Mekong River Delta region,

Southern delta region. Some Vietnamese families are affected by the way they call and use this word.

Other meanings of magnetism

In addition to the above meaning, we also know about magnetism in the sense of creating, redoing, adjusting based on the original.

For example:

After drinking all the water, instead of throwing away the jars, you can recycle completely, turn into a cute pen case or toothbrush holder to protect the environment.

In addition, we have come across a rather familiar type of music that is 'instrumental music' or 'plagiarism', which is a way to correct words or music from a certain song. This type of music is loved by young people and becomes a new trend.

In addition, the institution is also known as concoction. This is a method of creating a new drink from different ingredients and solutions.
