

# What does the triangle mean in physiognomy?

What does a triangle in the palm mean? According to physiognomy, each shape and line in the palm has its own meaning and the triangle is no exception.

**What does a triangle in the palm mean?** According to physiognomy, each shape and line in the palm has its own meaning and the triangle is no exception.

The triangles formed by the connecting lines running across the palm can provide essential clues about an individual's personality and future. The specific shape of the triangles and their positions can provide clues about the individual's personality and nature.

If three lines intersect on the palm, it is an equilateral triangle. When a triangle is formed in the palm of your hand, it can bring both good and bad results. However, this depends on the position where the triangle is formed as they have different meanings. This article will help you understand **the meaning of triangles formed on the palm according to palmistry** .

## In the center of the palm

A large equilateral triangle in the center of the palm is a sign of good fortune and indicates that you will make a career, have good luck in making money and be known by many people; you may even become a leader. In addition, you will have a good husband/wife. However, a triangle on the mount of Neptune is unfortunately a bad sign indicating the "punishment" of being alone all your life.

## **On the path of marriage or spirituality**

A triangle on the marriage line or heart line indicates that you will have good luck with money or gain wealth from marriage or love.

## **On the path of wisdom**

If the triangle is on the line of wisdom, this shows that you will not only achieve academic and theoretical achievements but also have eloquence.

## **On the path of life**

This situation is divided into two types. If the triangle is on the life line, it shows that you are stronger than average and have a refined manner, so you are always helped by everyone and are highly regarded by your boss and colleagues; you will have steady development whether you are an official or go into business or start your own business, and you will have great achievements in your career, so you are very lucky. If the triangle is at the end of the life line, it shows that you will be admired a lot when you are old.

If the triangle is very close to the life line, it indicates unspeakable diseases in internal organs, such as the heart, liver and stomach, and you should be vigilant and take precautions in advance. Go to the hospital for examination as soon as possible when you feel uncomfortable.

## **On the wrist**

A triangle on the wrist line is also a good sign. If the triangle is in the center of the line, it shows that you are born blessed and very lucky in terms of money; you may inherit your ancestors' legacy or become a department manager, thus gaining fame or power. If the other lines form a regular shape with sharp angles (not a triangle), it shows that you are very intelligent and have special abilities in a certain field, thanks to which you will gain wealth.

### **Below the index finger (Jupiter mount)**

It indicates that you are talented in military and politics, and you are a strong, prudent, disciplined person who can withstand great pressure, thus can have a successful career and live a comfortable life.

### **Under the middle finger (Saturn mount)**

It indicates that you will build a career and achieve what you desire after middle age.

### **Under the ring finger (Apollo mound)**

It shows that you are flexible and have good learning ability, extraordinary temperament and talent, so you can achieve certain achievements in life.

### **Under the little finger (Moon mount)**

This is a good sign of career success and financial luck. This triangle shows that you are very intelligent and have management skills, so you will definitely achieve some success in business.
