3. The secret to getting things done when you're not interested
4. Why are those who take advantage of the morning more successful?

## The meaning of Deadline

Deadline can be found in two different areas: the name of a entertainment industry news website of Penske Media and the second meaning is **limited, the deadline of a job** that you are assigned and must be completed first. that time.

Currently the term deadline is used a lot and appears often in work, When you are assigned a specific job and have time to complete, the deadline for doing that job is deadline. So if we see someone say late deadline, run the deadline, it means they need to finish the job quickly according to the deadline.

The same meaning for deadline to indicate a limit in work is the dateline. The term dateline refers to the time when something happened. Such as meeting time, meeting time held, reporting time, . Dateline appears a lot in the papers and announcements.

The application of deadlines at work also motivates employees, or students, in part when they need to have specific, scientific plans for work if they do not want to be late. Completing a job before the deadline also shows a person's ability to work, professionalism and working style before the assigned task.
