

What is Dynamic Island? What effect does Dynamic Island have on iPhone 14 Pro?

Simply put, Dynamic Island is the name of the notch on the iPhone 14 Pro screen and is also the name of the new adaptive feature that Apple created.

During the recent Far Out event, Apple introduced a series of new products, the most prominent of which are the iPhone 14 Pro and 14 Pro Max duo.

All revolutions lie in the screen design. This year, Apple removed the rabbit-ear design on the iPhone 14 Pro and replaced it with a pill-shaped design with the unique name Dynamic Island.
