

What is Quick Play on YouTube Music?

YouTube Music has just launched the Pin to Speed ??Dial feature, which gives you instant access to the content you like right from the app's Home page.

YouTube Music has just launched a new feature called Pin to Speed ??Dial, which allows you to access your favorite content right from the Home page of the app. Here's how to use the Quick Play feature on YouTube Music.

What is the Quick Play shelf on YouTube Music?

The Quick Play Shelf is a YouTube Music feature that lets you customize the Quick Play widget accessible from the Home tab. This feature lets you pin your favorite music to the Home tab, giving you quick access to songs, playlists, or albums you like.

Users can pin any song, album, playlist, radio station, or video to the Quick Play widget of the Home tab.

How to use the Quick Play shelf on YouTube Music

Step 1:

Find the song, video, or content you want to pin. Then tap **the 3-dot icon** in the top right corner. Show options below, tap **Pin to Quick Play shelf** in the menu that appears. Continue with other content you want to pin.
