

What is the Devil Fruit in Blox Fruit? All Blox Fruits in Blox Fruit

If you are new to Blox Fruit and don't know what a devil fruit is, check out the content below.

Blox fruits, also known as devil fruits because they are abilities that players can possess through their mouths. Just by eating devil fruits, you will get different special abilities.

This is one of the five ways you can deal damage in Blox Fruit, the other four being using Guns, Swords, Martial Arts, and Races. If you are new to Blox Fruit and don't know what a devil fruit is, check out the content below.

Ways to get Blox Fruit

Code Blox Fruit Roblox

Although game publishers rarely give players a devil fruit in Blox Fruit code. But with the rewards in **Blox Fruit code** will support you to get devil fruit faster by x2 experience or money.

Factory

To get free devil fruits, you can go to the Factory and create raids. The Factory looks like the SMILE Factory in One Piece and is located in the Rose Kingdom (2nd sea) and has the ability to produce Blox Fruit. It opens every 1 hour and 30 minutes and automatically turns off after 5 minutes if no one enters and deals damage.

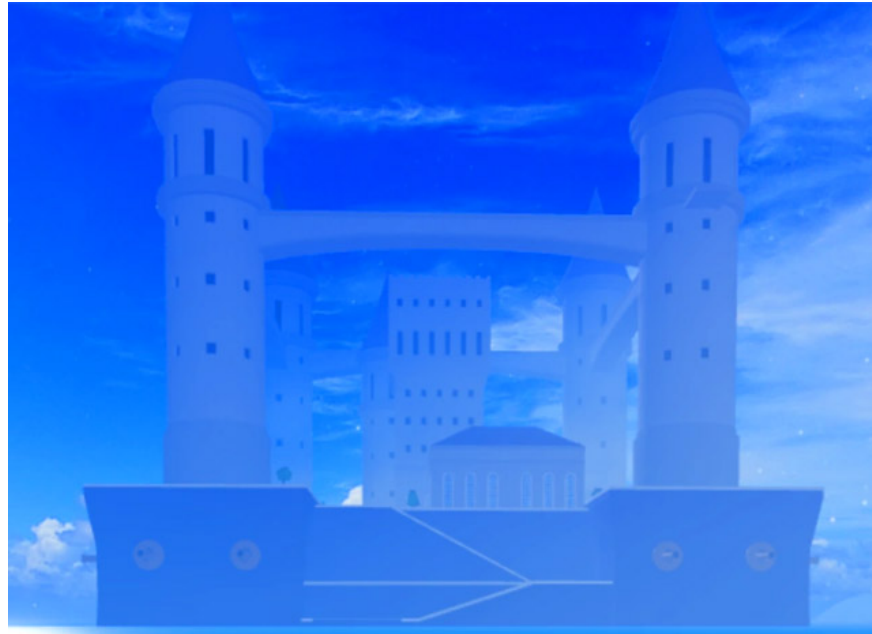

To get a Devil Fruit, you must destroy a core with 500,000 health within 5 minutes to complete the raid. Whoever deals the most damage to the core will be randomly awarded a Devil Fruit.

Defend the Castle on the Sea

Castle on the Sea is an island/castle that was introduced in Update 15. Players can enter this castle by using the portal or going through the dock.

Every 1 hour and 15 minutes (75 minutes), a message will appear at the top of the screen and in the chat that "Pirates have been spotted approaching the castle!" About 20 seconds later, another message will appear "Pirates are raiding the Castle at sea!"

A series of pirates from the second sea will start to appear, and there will be a powerful enemy that appears as a Boss and has more HP than the other pirates. Whoever kills this enemy will obtain a random Devil Fruit along with the message "**You have obtained a random Blox when you make the final attack!**" .

After each pirate is defeated, there will be a notification in the chat and on top of everyone's screen that has defeated 1 pirate "Good job! Whoever defeats at least 1 pirate will be rewarded with a few pieces." It will then give you 100 pieces if you defeat at least one pirate.

If you don't defeat them all in time, you won't get anything and a message will appear at the top of everyone's screen saying "The pirates have stopped raiding", and you'll have to wait another 75 minutes for the next pirate raid to happen. (When the raid is stopped message appears, all NPCs won't appear.)

Raider Ship

The Raid Ship is one of the four Sea Events, and can only be found in the second sea, the third sea, and rarely in the first sea. The Raid Ship sometimes occurs when you travel across the sea by Boat.

The Raid Ships spawn a Brigade ship and two Basic ships that will constantly chase you and fire cannonballs at your ship. They will detach after successfully destroying your ship or if you get far enough away. Defeating them will reward you with shards and possibly a random Devil Fruit, although this is quite rare.

Buy from grocery store

The Blox Fruit Dealer is an NPC that can give you a whole garden of devil fruits. It is one of the three main sources to get devil fruits, the others are cousins ??of the Blox Fruits Dealer and just need to be found.

If you buy devil fruits from this NPC, they can be purchased with Robux or in-game currency. The Blox Fruit Dealer can have a minimum of 3 fruits in stock at any given time (including bomb fruits and spinning fruits), with each fruit having a different chance of appearing.

Players can purchase any Devil Fruit in the inventory an unlimited number of times. When you purchase another Devil Fruit and eat it, it will automatically replace the Devil Fruit power you are currently using.

As for buying devil fruits with Robux, you can always buy them regardless of whether they are in stock or not. When you buy with Robux, you will have the devil fruit forever even if it is no longer available in the grocery store.

Go pick up

You can pick up random devil fruits on the map under trees, although you shouldn't look around for devil fruits without the Fruit Notifier gamepass as it's purely based on luck whether you find a devil fruit or not.

Devil Fruit Removal

You can buy another Devil Fruit to replace the Devil Fruit ability you currently possess. In addition, if you want to remove the Devil Fruit ability you currently possess, you can go to the Remove Blox Fruit NPC and pay him 50,000 for the NPC. This NPC is located in the Prison or in the Castle on the Sea.

How does a Devil Fruit user fall into water?

When a player with a Devil Fruit falls into water, their health will drain very quickly. Except for Ice Fruit, Buddha Fruit, and Lava Fruit, which allow them to walk on water. Buddha Fruits do not allow them to walk on water, but they can become giant and not sink.

Sand fruit users also take double damage from water, as sand hardens when it meets water. This applies to all fruits in Blox Fruit. However, being a member of the Fish race will reduce water damage and even completely nullify it if the player upgrades their race to V2.

Devil Fruit Awakening

Players can also awaken their devil fruit to upgrade its damage and abilities. This can also have additional effects on certain devil fruits such as Dark, Buddha, Ice, etc.
