

# What is the standard typing speed? High, low, or medium?

The average typing speed is around 40 words per minute, so what is the standard typing speed? What are high, low, and average speeds? This article from TipsMake will answer these questions for you.

For beginners, the first question they ask is: what is the standard typing speed? High, low, or average? How can I check my current typing speed, and what are some ways to improve it?

## What is the standard typing speed?

### Table of Contents:

1. What is WPM? 2.
- What is the standard typing speed? High, low, average .
3. How to check your typing speed .
4. Tips and ways to improve your typing speed effectively .

## *What is the average typing speed?*

### *1. What is WPM?*

WPM stands for Words per Minute, which is the number of words a person types in one minute. Essentially, WPM is used to calculate and evaluate a person's typing proficiency by counting the number of words they can type without making any errors within a given minute.

The image shows a screenshot of a typing speed test website in Vietnamese. The interface includes a navigation menu on the left with options like 'Kiểm tra tốc độ đánh máy' (Typing speed test), 'Kiểm tra đánh máy (năng cao)' (Advanced typing test), 'Kiểm tra đánh máy tùy chỉnh' (Custom typing test), 'Đánh máy nhiều người chơi' (Multi-player typing), 'Cuộc thi đánh máy' (Typing competition), 'Chế độ tập luyện' (Practice mode), and 'Top 1000' (Top 1000). The main content area displays a 'Kết quả' (Result) section with a large green '77 WPM' (words per minute) and '(từ mỗi phút)' (per minute). Below this, it shows 'Tổ hợp phím' (Key combination) as '(383 | 22) 405', 'Độ chính xác' (Accuracy) as '74.37%', 'Những từ đúng' (Correct words) as '72', and 'Những từ sai' (Wrong words) as '4'. There is a 'Chia sẻ qua Facebook' (Share on Facebook) button and a 'Taimienphi.vn' logo in the bottom right corner.

## 2. What is the standard typing speed? High, low, or medium?

Typing speed depends on the number of characters and words you can type per minute. Generally, the average typing speed is around 40 WPM (words per minute).

WPM (Word Rate Per Minute) can vary depending on individual typing methods and experience. Those who habitually type with two fingers may only achieve a speed of around 30 WPM, but those proficient in ten-finger typing can reach speeds of 60 WPM or more.

Below are the detailed levels of typing speed assessment (standard, high, low, and average) for an adult, corresponding to the number of words and characters per minute:

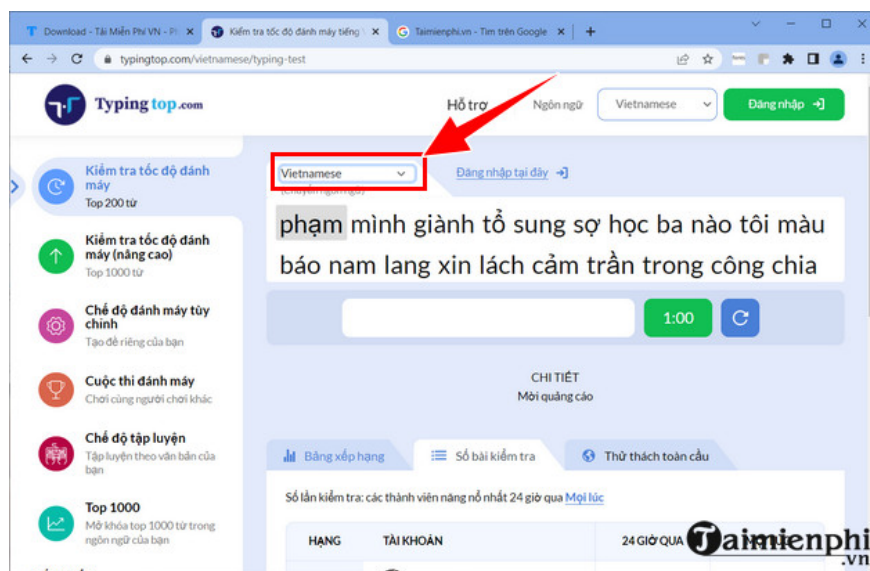

- Low typing speed: Below 60 WPM.
- Average typing speed: 60 - 100 WPM.
- High typing speed: From 100 WPM to 140 WPM.
- Professional typing speed: Over 140 WPM.

## 3. How to check your typing speed

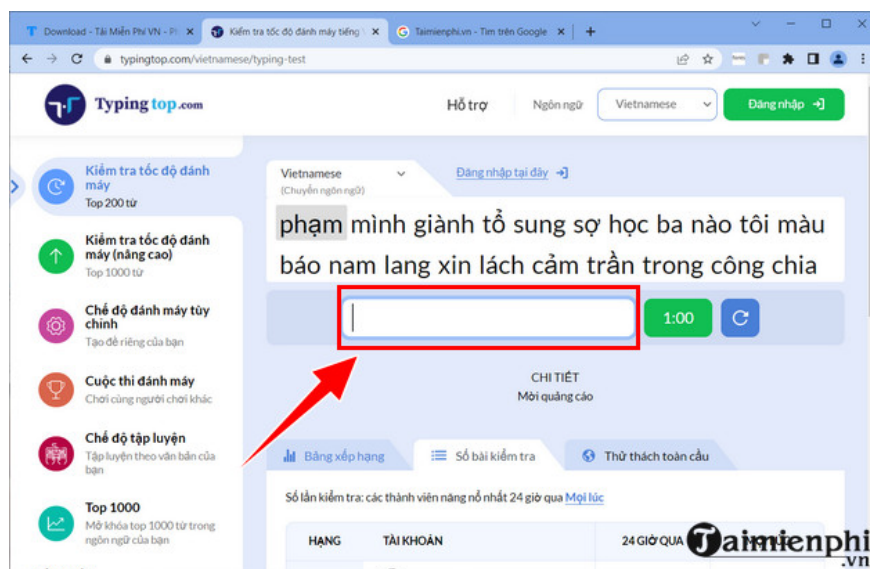

Free typing speed test websites offer tests to help people assess their current typing speed, as well as lessons to help them practice and improve their 10-finger typing skills or typing faster. One such website is Typingtop.com, considered one of the most accurate typing speed test websites.

**Step 1:** Access the typing speed test link on **Typingtop.com** here:

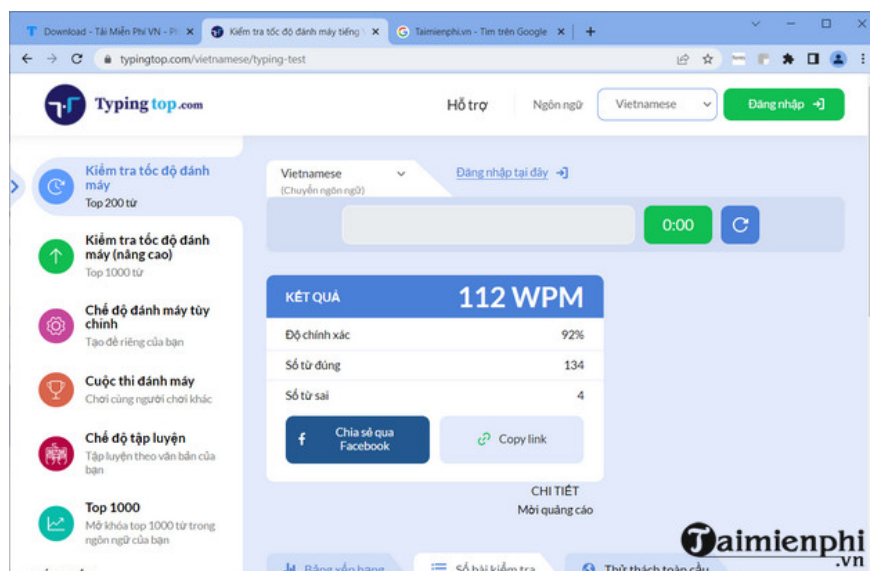

**Step 2:** Choose the language you want to use to test your typing speed.

**Step 3: Enter the content** into the box with a time limit of 1 minute for the program to calculate your typing speed.

**Step 4:** After 1 minute, the results will be displayed. With a result of **112 WPM** , you are assessed as having a **high typing speed** . You can also share this result on Facebook so that friends or family can participate in testing their typing speed.

#### 4. *Tips and ways to improve typing speed effectively*

To complete tasks quickly and save time, you should dedicate time to practicing typing exercises every day to improve your typing speed.

Of course, developing fast typing skills requires time and practice. The first step to improving your typing speed is to check your current speed using the tests available on Typingtop.com.

Next, set specific goals for yourself. Having a specific goal will motivate you to practice and achieve it. Additionally, typing support websites like Typingtop.com offer engaging games and challenges so you can practice and have fun at the same time, making typing practice enjoyable and effective.

Ten-finger typing skills are also crucial for improving typing speed. Using all your fingers when typing minimizes finger travel distance, thereby increasing speed and accuracy.

Hopefully, the information above will be helpful to you in your typing speed training. Good luck!
