

What is Windows 10 Education? Learn about Windows 10 and 11 versions for education

Windows 10, 11 Education are popular versions in schools. So what is Windows 10, 11 Education? Why do educators choose Windows Education?

Windows 10, 11 Education are popular versions in schools. So what is Windows 10, 11 Education? Why do educators choose Windows Education?

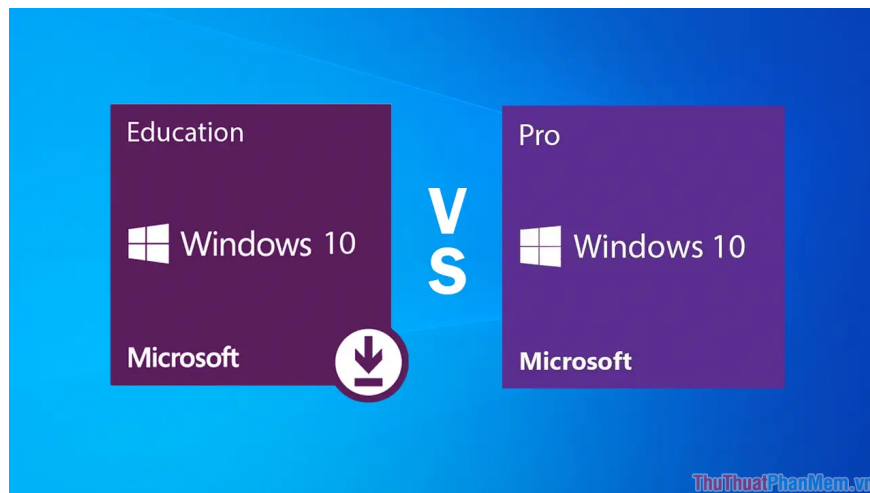

1. What is Windows Education?

Windows 10 and 11 operating systems are divided into many different versions to meet the needs of many different customer groups. Currently, Windows is popular with the following versions: Home, Office, Pro, Enterprise, Education. Each version of Windows 10 and 11 is individually optimized for the customer group they target. In particular, Windows 10 and 11 Education versions are aimed at computers in schools.

Windows 10 Education is a variant version of Windows 10 Enterprise. This version is optimized for security and upgraded enterprise-level management capabilities. For the educational environment, managing computer systems in schools is extremely important. Because of that, Windows 10 Education has greatly improved management. In addition, the operating system also comes pre-installed with default software for education and removes non-essential features (For example: Cortana virtual assistant,.). Microsoft Store guides, tips, tricks, feature demos, and recommendations are also removed.

If your computer has Windows 10 Education installed, you can also upgrade to the full version of Windows 10 through Windows Update or Service Center (genuine license required). Currently, Windows 10 Education is recommended for K-12 customers because Windows 10 Education currently has very good security for educational environments.
