Xàm is a word that appeared a long time ago, not recently appeared. In particular this word is derived from the South, not an acronym in English. After appearing on social networks, this word is quickly updated and used by young people all over the country.

Xàm is a word with two meanings. Depending on the conversation and the situation of the conversation, you should understand what it means.

"XÀM"

Damn describes familiarity, repeated continuously

In the first sense school is understood in the sense that the story is repetitive or too familiar to the listener. In this animation, the act will act as an adjective that expresses the boredom of the listeners about a certain story or action of another person.

For example: Can you stop talking about it?

You have less clinging, listen to your head forever.

Xàm expresses the ordinary, bland

In the second sense field, the meaning will be meaningless, when the story tells the opponent that you don't find it interesting and noticeable. In addition, the feelings of the speaker in this sentence are often uninteresting or even contempt for someone, the phenomenon, the person they are exposed to. This word 'tam' means many people use it in life.

For example: You talk so badly, I don't care.

Tell the story so badly, who can believe it
